2. Information

Pupils at school with medical conditions, including both physical and mental health conditions, should be properly supported so that they have full access to education, including school trips and physical education.

Some children with medical conditions may be disabled. Where this is the case schools must comply with their duties under the Equality Act 2010. For children with SEND, this guidance should be read in conjunction with the SEN code of practice.

Section 100 of the Children and Families Act 2014 places a duty on governing bodies to make arrangements for supporting pupils at their school with medical conditions.

No child with a medical condition should be denied admission or prevented from taking up a place in school because arrangements for their medical condition have not been made. These arrangements must give parents and pupils confidence in the school's ability to provide effective support for medical conditions in schools

Individual Health Care plans can help staff identify the necessary safety measures to support children and ensure that they and others are not put at risk.

Policy:	Supporting Pupils at School with Medical Conditions			Page 4 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

Definition

Pupils' medical needs may be broadly summarised as being of two types:

- (a) **Short-term**, affecting their participation in school activities whilst they are on a course of medication
- (b) **Long-term**, potentially limiting their access to education and requiring extra care and support

3. Scope

This Policy is designed to ensure that:

1. Pupils at school with medical conditions are properly supported so that they can play a full and active role in school life; remain healthy and achieve their academic potential;
2. Our Governing Body is supported in its duty to ensure that arrangements are in place to support pupils at school with medical conditions; and
3. Our Governing Body is supported in its duty to ensure that our school consults health and social care professionals, pupils and parents to ensure that the needs of children with medical conditions are effectively supported.

4. Responsibilities

Governing Body

It is the responsibility of our Governing Body to ensure that arrangements are in place to support pupils with medical conditions. In doing so they should ensure that such children can access and enjoy the same opportunities at school as any other child. In order to do so they should ensure that:

- 1) Available adequate resources are made available in order to implement the Policy;
- 2) There are suitable arrangements at school to work in partnerships and to generally adopt acceptable practices in accordance with the Policy;
- 3) They take into account that many of the medical conditions that require support at school will affect quality of life and may be life-threatening;
- 4) The focus is on the needs of each individual child and how their medical condition impacts on their school life;

Policy:	Supporting Pupils at School with Medical Conditions			Page 5 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

- 5) In making their arrangements they give parents and pupils confidence in the school's ability to provide effective support for medical conditions in school;
- 6) The school demonstrates an understanding of how medical conditions impact on a child's ability to learn, as well as increase their confidence and promote self-care;
- 7) That staff are properly trained to provide the support that pupils need; and
- 8) That written records are kept of all medicines administered to pupils

Headteacher

The Headteacher is responsible for implementing this policy and the developing Individual Healthcare plans and for ensuring that relevant staff have sufficient resources, including training and personal protective equipment, to support pupils with medical conditions. In order to do so they should identify a named person who has overall responsibility for:

- a) ensuring that sufficient staff are suitably trained;
- b) that all relevant staff will be made aware of the child's condition including any requirement for the child to participate in outside the classroom activities where appropriate;
- c) cover arrangements are in place at all times in case of staff absence or staff turnover to ensure someone is always available;
- d) supply teachers are briefed;
- e) risk assessments have been carried out for school visits, holidays, and other school activities outside of the normal timetable;
- f) procedures are in place to cover any transitional arrangements between schools for any medical issues;
- g) for children starting at the school, necessary arrangements are in place in time for the start of the relevant school term so that they start at the same time as their peers;
- h) Individual Healthcare plans (see appendix 'H') are monitored including identifying pupils who are competent to take their own medication;

Policy:	Supporting Pupils at School with Medical Conditions			Page 6 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

- i) The management of accepting, storing and administering any medication (see appendix 'B'); and
- j) That appropriate protective equipment is made available to staff supporting pupils at school with medical conditions.

Further to this the Headteacher will need to ensure that there is effective coordination and communications with relevant partners, professionals, parents and the pupils.

In order to ensure that pupils' health is not put at unnecessary risk from infectious diseases, in line with safeguarding duties, the Headteacher must inform parents that they should keep children at home when they are acutely unwell. **They should not accept a child in school at times where it would be detrimental to the health of that child or others to so.** School staff should also not attend school if acutely unwell. Adults and children must be clear of any vomiting and diarrhea for 48 hours prior to returning to work.

In the event of an outbreak situation, the school must follow any guidance issued by Public Health England. For further information on infection control, please see the Communicable Diseases guidance.

Administration of Medication

The administration of medication at school will minimise the time that pupils will need to be absent.

Some children may need to take medicines during the school day at some time during their time in a school or setting and as a school we recognise that we will need to be flexible in our approach. Some examples of circumstances under which schools may be requested to administer medicines are as follows:

- 1. Cases of chronic conditions e.g. diabetes, asthma (see Asthma Policy), epilepsy or anaphylactic shock;
- 2. Cases where pupils recovering from short term illnesses may be well enough to attend school but need to finish a course of antibiotics, cough medicine etc.

However, medicines should only be taken to school where it would be detrimental to a child's health if it were not administered during the school day. It should be noted that wherever feasible parents should administer medication outside of school hours.

In terms of the administration of medication, the Headteacher is also responsible for the management of accepting, storing and administering any medication (see appendix 'B'). This is completed by ensuring that:

- 1. Monitoring arrangements are in place for the administration of medication to ensure:

Policy:	Supporting Pupils at School with Medical Conditions			Page 7 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

- a) Consent is obtained from parents (see appendix ‘A’);
- b) As agreed with parents, any administration of medication must be recorded (see appendix ‘D’ & ‘E’); and
- c) Medication should always be stored appropriately, but must be easily accessible to the child in case of an emergency (see appendix ‘D’ & ‘E’)

2. The instructions below are followed:

- a) As part of the signed agreement with parents, taking action to ensure that medication is administered;
- b) Ensuring that all parents and all staff are aware of the policy and procedures for dealing with medical needs;
- c) Ensuring that the appropriate systems for information sharing are followed;
- d) Staff managing the administration of medicines and those who administer medicines should receive training and support from health professionals, to achieve the necessary level of competency before they take on responsibility to support children with medical conditions. This training includes induction arrangements for new staff and must be refreshed at suitable intervals as advised and a minimum requirement is every 3 years;
- e) Medicines should only be taken to school when essential; that is where it would be detrimental to a child’s health if the medicine were not administered during the school ‘day’;
- f) Schools should only accept medicines that are in date, labelled and have been prescribed by a doctor, dentist, nurse prescriber or pharmacist prescriber (see Non Prescribed Medication below);
- g) Medicines should always be provided in the original container as dispensed by a pharmacist and include the prescriber’s instructions for administration and dosage and storage;
- h) Schools should never accept medicines that have been taken out of the container as originally dispensed nor make changes to dosages on parental instructions. The exception to this is insulin which must still be in date, but will generally be available to schools inside an insulin pen or a pump, rather than in its original container;
- i) The school will not be responsible for administering medicines without having had written notification from the parents (see appendix ‘A’);

Policy:	Supporting Pupils at School with Medical Conditions			Page 8 of 33	
Author:	J. Stillings (using HBC’s Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

- j) Ensuring that medicines are stored securely and with restricted access, although all medication should be easily accessible in an emergency; and
- k) Taking account of circumstances requiring extra caution as per Individual Health Care Plans
 - Where the timing of administration is crucial;
 - Where serious consequences may occur through failure to administer;
 - Where technical or medical knowledge is needed;
 - Where intimate contact is necessary.

In these circumstances the Headteacher will consider carefully what the school is being asked to do. Even if it is within the interest of the child to receive the medication in school, staff cannot be instructed to administer, however the school still has a duty to ensure that arrangements are in place to support such pupils. In these cases it would be useful to speak to the school health nurse.

School Staff

School staff should receive sufficient and suitable training and achieve the necessary level of competency before they take on responsibility to support children with medical conditions. Any member of school staff should know what to do and respond accordingly when they become aware that a pupil with a medical condition needs help.

However, school staff may be asked to provide support to pupils with medical conditions, including the administering of medicines, although they cannot be required to do so. Although administering medicines is not part of teachers' professional duties, they should take into account the needs of pupils with medical conditions that they teach.

Their responsibilities include:

- a) All staff should be familiar with normal precautions for avoiding infection and follow basic hygiene procedures, as advised by health professionals. Staff should have access to and must use protective disposable aprons and gloves (not latex) and take care when dealing with spillages of blood or other body fluids and disposing of dressings or equipment;
- b) The school shall have a request from the parent for the school to administer medicine to their child (see appendix 'A'). The administration of medication should only be conducted in accordance with parental agreement and as set out in the Individual Health Care Plan;
- c) Long term conditions such as epilepsy, diabetes or asthma (see Asthma Policy) should be recorded in the pupil's file along with instructions issued by

Policy:	Supporting Pupils at School with Medical Conditions			Page 9 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2

Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

the doctor as set out in the Individual Health Care Plan (see appendix ‘G’ & ‘I’);

- d) The school should check that the medicine has been administered without adverse effect to the child in the past and that parents have certified this is the case in writing;
- e) Medicines should personally be handed over to the school by a responsible adult and not by a child;
- f) Medicines must be in date and in the original container marked with a pharmacy label stating the child’s name, the type of medicine, in date and the required dosage and storage instructions;
- g) Medicines must be kept within a secured area, out of the reach of children and visitors. This is except in emergency situations, where children are competent to self-administer. For medicines and devices such as asthma inhalers, blood glucose testing meters and adrenaline pens, these should not be locked away and should always readily available to children;
- h) Receipt of medicines must be logged and an entry made when returned to parents (see appendix ‘D’ & ‘E’);
- i) An entry should be made of the pupil’s name, drug administered, dosage, date and time (see appendix ‘D’ & ‘E’);
- j) The directions of the pharmacy label must be strictly followed;
- k) Where possible another member of staff should act as witness to the administration;
- l) Parents should be informed of a refusal to take medication on the same day. If a refusal to take medicines results in an emergency, the school’s emergency procedures will be followed; and
- m) If the school becomes aware that a pupil has vomited or has had diarrhea after taking the medication they should notify the parents.

School Nurses

Every school has access to school nursing services. They would not usually have an extensive role in ensuring that schools are taking appropriate steps to support children with medical conditions, but can be responsible for:

Policy:	Supporting Pupils at School with Medical Conditions			Page 10 of 33	
Author:	J. Stillings (using HBC’s Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

- a) notifying the school when a child has been identified as having a medical condition which will require support in school. Wherever possible, they should do this before the child starts at the school;
- b) liaising with lead clinicians locally on appropriate support for the child and associated staff training needs;
- c) supporting staff on implementing a child's individual healthcare plan; and
- d) advise and liaison on training to local school staff

Community nursing teams will also be a valuable potential resource for a school seeking advice and support in relation to children with a medical condition.

Other Healthcare Professionals

This includes GPs, specialist healthcare teams and paediatricians who should:

- a) notify the school nurse when a child has been identified as having a medical condition that will require support at school;
- b) provide advice on developing healthcare plans; and
- c) provide support in schools for children with particular conditions (eg asthma, diabetes).

Parents

Parents should:

- a) provide the school with sufficient and up-to-date information about their child's medical needs;
- b) be involved in the development and review of their child's Individual Healthcare Plan, and may be involved in its drafting; and
- c) carry out any action they have agreed to as part of the implementation of their child's Healthcare Plan, e.g. provide medicines and equipment and ensure they or another nominated adult are contactable at all times. If they fail to provide sufficient medication, they should be contacted immediately and necessary arrangements made, e.g. provision of medication, returning the child to the parent awaiting provision of the medication, etc.

Policy:	Supporting Pupils at School with Medical Conditions			Page 11 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

Pupils

Pupils with medical conditions will often be best placed to provide information about how their condition affects them. They should be fully involved in discussions about their medical support needs and contribute as much as possible to the development of, and comply with, their Individual Healthcare Plan. Other pupils will often be sensitive to the needs of those with medical conditions.

After agreement with parents it is good practice to support and encourage pupils, who are able, to take responsibility to manage their own medicines from a relatively early age (see appendix 'C'). Children develop at different rates and so the ability to take responsibility for their own medicines varies. If pupils can take their medicines themselves, staff may only need to supervise.

Inhalers for pupils with asthma need to be readily available. Pupils who are mature enough can look after their own inhalers. They should always be available during physical education classes and outdoor learning experiences.

Local Authorities

Local Authorities are responsible for;

- a) commissioning school nurses;
- b) promoting cooperation between relevant partners such as governing bodies of maintained schools, proprietors of academies, Clinical Commissioning Groups and NHS England, with a view to improving the well-being of children, so far as relating to their physical and mental health, and their education, training and recreation (Section 10 of the Children Act 2004);
- c) providing support, advice and guidance, including suitable training for school staff, to ensure that the support specified within individual healthcare plans can be delivered effectively;
- d) working with schools to support pupils with medical conditions to attend full time;
- e) where pupils would not receive a suitable education in a mainstream school because of their health needs, the local authority has a duty to make other arrangements; and
- f) statutory guidance sets out that they should be ready to make arrangements under this duty when it is clear that a child will be away from schools for 15 days or more because of health needs (whether consecutive or cumulative across the school year).

Policy:	Supporting Pupils at School with Medical Conditions			Page 12 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

Providers of Health Services

Should co-operate with schools that are supporting children with a medical condition, including appropriate communication, liaison with school nurses and other healthcare professionals such as specialist and children’s community nurses, as well as participation in locally developed outreach and training.

Health services can provide valuable support, information, advice and guidance to schools, and their staff, to support children with medical conditions at school.

Clinical Commissioning Groups (CCGs)

Commission other healthcare professionals such as specialist nurses and have a reciprocal duty to cooperate under Section 10 of the Children Act 2004. They should ensure that:

- a) commissioning is responsive to children’s needs, and that health services are able to co-operate with schools supporting children with medical conditions; and
- b) they are responsive to local authorities and schools seeking to strengthen links between health services and schools, and consider how to encourage health services in providing support and advice, (and can help with any potential issues or obstacles in relation to this).

5. Individual Health Care Plans

It is not appropriate to send children with medical conditions home frequently or prevent them from staying for normal school activities, including lunch, unless specified in their Individual Health Care plans (see appendix ‘G’). This will include requiring parents to provide up to date information about their child’s medical needs, provide their child’s medication to the school in the original container and also carry out any action they have agreed as part of their child’s healthcare plan, where one is in place.

The aim of Individual Healthcare Plans (see appendix ‘G’) should be to capture the steps which a school should take to help the child manage their condition and overcome any potential barriers to getting the most from their education.

Schools have responsibility for ensuring Individual Healthcare Plans are finalised and implemented. They should agree with partners who will take the lead in writing the plan. They need to be reviewed at least annually or earlier if evidence is presented that the child’s needs have changed. Plans should be developed with the child’s best interests in mind and ensure that the school assesses and manages risks to the child’s education, health and social well-being and minimises disruption

Policy:	Supporting Pupils at School with Medical Conditions			Page 13 of 33	
Author:	J. Stillings (using HBC’s Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

Individual Healthcare Plans, (and their review), may be initiated, in consultation with the parent, by a member of school staff or a healthcare professional involved in providing care to the child. Pupils should be involved whenever appropriate.

In deciding what information should be recorded on Individual Healthcare Plans the following should be considered:

- the medical condition, its triggers, signs, symptoms and treatments;
- the pupil's resulting needs, including medication and other treatments, time, facilities, equipment, testing, access to food and drink where this is used to manage their condition, dietary requirements and environmental issues;
- specific support for the pupil's educational, social and emotional needs;
- the level of support needed including in emergencies;
- whether a pupil can self-manage their medication and the monitoring arrangements;
- who will provide this support, their training needs, expectations of their role and confirmation of proficiency to provide support;
- who in the school needs to be aware of the child's condition and the support required;
- arrangements for written permission from parents and the Headteacher for medication to be administered by a member of staff, or self-administered by the pupil during school hours;
- separate arrangements or procedures required for school trips or other school activities outside of the normal school timetable that will ensure the child can participate, e.g. risk assessments;
- where confidentiality issues are raised by the parent/child, the designated individuals to be entrusted with information about the child's condition;
- what to do in an emergency, including whom to contact, and contingency arrangements. Some children may have an emergency healthcare plan prepared by their lead clinician that could be used to inform development of their individual healthcare; and
- Schools do not have to wait for a formal diagnosis before providing support to pupils. In cases where a pupil's medical condition is unclear, or where there is a difference of opinion, judgments will be needed about what support to provide based on the available evidence. If consensus cannot be reached, the Headteacher is best placed to take a final view.

Policy:	Supporting Pupils at School with Medical Conditions			Page 14 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

6. Administration of Medication

Non Prescribed Medication

- a) Only after parental advice should schools administer Paracetamol or other pain relief. For pupils under 16, parental consent must be obtained beforehand and a record of that consent and administration should be made.
- b) The school **must not** keep its own stock of medication; the parent must provide the school with a supply of appropriate pain relief tablets for use solely by their child.
- c) A dose of paracetamol or pain relief should only be given after effort has been made to ease the pupil's pain. Before each dose of the medication is given, the school should obtain parental consent. The school must ask the parent how many doses of the pain relief have been administered in the previous 24 hours, and only administer pain relief if in line with the recommended dose. A record of that consent and any administration of medication should be made.
- d) Staff should check that the medicine has been administered without adverse effect to the child in the past and that parents have certified this is the case – a note to this effect should be recorded in the written parental agreement for the school/setting to administer medicine.
- e) If a child suffers regularly from frequent or acute pain the parents should be encouraged to refer the matter to the child's GP. **A child under 16 should never be given aspirin-containing medicine unless prescribed by a doctor.**

Storing Medicines

The following must be followed in the storage of medication:

1. Medicines should be kept in a secure place with restricted access (see 11 below);
2. Controlled drugs should be stored securely with limited access, but should be easily accessible in an emergency. A record should be kept for audit and safety purposes (see appendix 'D' & 'E');
3. Some medication, subject to the Individual Healthcare plan (see appendix 'G'), can be kept in a refrigerator alongside food but should be in an airtight container and clearly labelled ;
4. Large volumes of medicines should not be stored;

Policy:	Supporting Pupils at School with Medical Conditions			Page 15 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

5. Children should know where their own medicines are stored, who holds the key and be able to access them;
6. Staff should only store, supervise and administer medicine that has been prescribed for an individual child;
7. Medicines should be stored strictly in accordance with product instructions (paying particular note to temperature) and in the original container in which dispensed;
8. Staff should ensure that the supplied container is clearly labeled with the name of the child, the name and dose of the medicine, storage instructions and the frequency of administration;
9. Where a child needs two or more prescribed medicines, each should be in a separate container;
10. Staff should never transfer medicines from their original containers; and
11. Medicines and devices such as asthma inhalers, blood glucose testing meters and adrenalin pens should be always readily available to children and not locked away

Controlled Drugs

The supply, possession and administration of some medicines are controlled by the Misuse of Drugs Act and its associated regulations. Some may be prescribed as medicine for use by children, e.g. Ritalin, methylphenidate.

Any trained and competent member of staff may administer a controlled drug to the child for whom it has been prescribed. Staff administering medicine should do so in accordance with the prescriber's instructions.

It is permissible for schools and settings to look after a controlled drug, where it is agreed that it will be administered to the child for whom it has been prescribed.

A controlled drug, as with all medicines, should be returned to the parent when no longer required to arrange for safe disposal (by returning the unwanted supply to the local pharmacy). If this is not possible, it should be returned to the dispensing pharmacist (details should be on the label).

Misuse of a controlled drug, such as passing it to another child or another person for use, is a criminal offence.

Policy:	Supporting Pupils at School with Medical Conditions			Page 16 of 33

Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

Regular Injection

The school has a duty to support children with medical conditions at school and as a result trained and competent staff may be required to administer injections to pupils suffering from conditions including diabetes, epilepsy, anaphylactic shock, insulin etc. where the child is incompetent for whatever reason to do so themselves.

In the case of pupils with an individual Health Care Plan, the Plan must set out what to do in the case of an emergency. This response should be drawn up in consultation with the school health nurse, other medical professionals as appropriate and the child’s parents.

As per the Individual Health Care Plan, consideration in these circumstances must be given to the reasonableness of the child being able to participate in out of school activities such as educational visits, residential trips etc.

Self-Management

After agreement with parents it is good practice to support and encourage children, who are able and competent to do so, to take responsibility to manage their own medicines from a relatively early age and schools should encourage this. The age at which children are ready to take care of, and be responsible for, their own medicines, varies. As children grow and develop they should be encouraged to participate in decisions about their medicines and to take responsibility. This should be documented in the Individual Health Care Plan after discussion with health care professionals and parents.

Children Requiring Emergency Medication

The Individual Healthcare Plans should detail the pupils and circumstances when emergency medication is required. All emergency medication must be readily available and located in an accessible place in a school, which has been communicated to staff and relevant pupils.

Transport of Medication

In circumstances where the Local Authority provides school transport for pupils, the vehicle must be equipped with a lockable box and the medication placed in the box in a sealed bag by the responsible person. Once pupils have been collected the box should be locked by the driver and, on arrival at school, handed to the relevant member of staff. The same procedure should apply where medication needs to be returned home with the pupil.

If a child requires emergency medication, this will be placed in a separate box so that it is accessible and arrangements made by the school for the passenger assistant to be trained in administering the medication.

Policy:	Supporting Pupils at School with Medical Conditions			Page 17 of 33	
Author:	J. Stillings (using HBC’s Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

Finally, pupils may retain their own medication if the school notifies the transport section that they are competent to do so and it is not required for emergency purposes. In this instance it is not the responsibility of the transport section to ensure that it is safely retained.

Disposal of Medicines

Staff should not dispose of medicines. Parents are responsible for ensuring that date-expired or unused medicines are returned to a pharmacy for safe disposal. They should also collect medicines held at the end of each term. If parents do not collect all medicines, they should be taken to a local pharmacy for safe disposal. A written record should be kept and parents informed.

Sharps boxes should always be used for the disposal of needles. Sharps boxes can be obtained by parents on prescription from the child's GP or paediatrician. Collection and disposal of the boxes should be arranged with the Local Authority.

Hygiene and Infection Control

All staff should be familiar with normal precautions for avoiding infection and follow basic hygiene procedures. Staff should have access to protective disposable gloves and aprons where appropriate and take care when dealing with spillages of blood or other body fluids and disposing of dressings or equipment.

The schools will ensure that any member of school staff providing support to a pupil with medical needs should have received suitable training. Training should be sufficient to ensure that staff are competent and have confidence in their ability to support pupils with medical conditions, and to fulfil the requirements as set out in individual healthcare plans.

The relevant healthcare professional should normally lead on identifying and agreeing with the school, the type and level of training required, and how this can be obtained.

Staff must not give prescription medicines or undertake health care procedures without appropriate training (updated to reflect any individual healthcare plans). **A first-aid certificate does not constitute appropriate training in supporting children with medical conditions.**

Day trips, residential visits and sporting activities

Arrangements must be clear and unambiguous about the need to actively support pupils with medical conditions to participate in school trips and visits, or in sporting activities, including physical education lessons and not prevent them from doing so, unless it is otherwise stated in their Individual Health Care plan.

Policy:	Supporting Pupils at School with Medical Conditions			Page 18 of 33	
Author:	J. Stillings (using HBC's Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

Teachers and/or other designated school staff should be aware of how a child’s medical condition will impact on their participation, but there should be enough flexibility for all children to participate according to their own abilities and with any reasonable adjustments. Schools should make arrangements for the inclusion of pupils in such activities with any reasonable adjustments as required; unless evidence from a clinician such as a GP states that this is not possible.

Schools should consider what reasonable adjustments they might make to enable children with medical needs to participate fully and safely on visits. It is best practice to carry out a risk assessment so that planning arrangements take account of any steps needed to ensure that pupils with medical conditions are included. This will require consultation with parents and pupils and advice from the relevant healthcare professional to ensure that pupils can participate safely.

When storing or transporting medicines for day trips, residential visits and sporting activities, schools should refer to the ‘Transport of Medication’ and ‘Storing Medicines’ sections within this policy.

7. Emergency Procedures

The Individual Healthcare Plan should clearly define what constitutes an emergency for that particular child and explain what to do, including ensuring that all relevant staff are aware of emergency symptoms and procedures.

As part of general risk management processes all schools should also have arrangements in place for dealing with emergency situations. Schools should therefore take care not to solely focus on emergencies identified in the Individual Healthcare Plans and appreciate that other emergency situations may occur.

All staff should be aware of the likelihood of an emergency arising and what action to take if one occurs. Back up cover should be arranged for when the member of staff responsible is absent or unavailable, this includes out of class activities.

At different times of the day other staff may be responsible for children, such as lunchtime supervisors. It is important that they are also provided with training and advice. Other children should know what to do in the event of an emergency, such as, telling a member of staff.

Transport to Hospital

Where the Headteacher or, in her absence, most senior member of staff, considers that hospital treatment is required the school should contact the emergency services for advice and follow it. Parents must be contacted and informed of the situation.

Policy:	Supporting Pupils at School with Medical Conditions			Page 19 of 33	
Author:	J. Stillings (using HBC’s Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

If a child needs to be taken to hospital, staff should stay with the child until the parent arrives, or accompany a child taken to hospital by ambulance. Schools need to ensure they understand the local emergency services cover arrangements and that the correct information is provided for navigation systems.

If, despite being fully appraised of the situation, the emergency service does not consider it necessary for transport by ambulance, but the school considers that further medical advice is required, the school should contact the pupil’s next of kin. If the next of kin cannot be contacted and/or do not have access to own transport, the school can, **only** in these **exceptional** circumstances, arrange to transport the injured person using their school staff transport. They must be accompanied by an additional responsible adult to support the injured person. If a child needs to be taken to hospital by ambulance a member of staff should accompany the child and stay with the injured child until their parents/guardians arrive.

8. Insurance

Where a member of staff acting in the course of employment supports pupils with medical conditions at schools, they will be indemnified by the Council’s liability insurance for any claim for negligence relating to injury or loss through their actions, providing that the following criteria have been met.

- They have received full appropriate training and are competent to carry out any medical interventions for that pupil
- They have received refresher training at the required intervals
- They have used the relevant protective equipment for that purpose
- There is written parental instruction and consent
- It is made clear to non-trained staff that they should not administer medication

9. Complaints

Should parents or pupils be dissatisfied with the support provided they should discuss their concerns directly with the school. If for whatever reason this does not resolve the issue, they may make a formal complaint via the school’s complaints procedure. Making a formal complaint to the Department for Education should only occur if it comes within scope of section 496/497 of the Education Act 1996 and after other attempts at resolution have been exhausted.

10. Review and Evaluation

In order to ensure that this policy continues to be effective and applicable, the programme will be reviewed biennially by Risk and Emergency Planning and relevant stakeholders. Conditions which might warrant a review of the policy on a more frequent basis would include:

- Changes to legislation;

Policy:	Supporting Pupils at School with Medical Conditions			Page 20 of 33	
Author:	J. Stillings (using HBC’s Model Policy) Custodian title and e-mail address: Principal Health and Safety Advisor tony.dean@halton.gov.uk			Version:	1.2
Approved by:	Finance, Premises, Health, Safety and Welfare Committee			Status:	Agreed
Date of Approval:	17.1.17	Date of Issue	19.1.17	Date of Review	In line with LA review (see pg 20)

- Employee concern.

Following completion of any review, the programme will be revised and/or updated in order to correct any deficiencies. Any changes to the program will be consulted through the relevant stakeholders.

11. List of Trained Staff at the School (include training and date undertaken / expiry date)

Lead Persons for managing medicines at school:

Mrs Marcella Scully and Mrs Lisa Lynock

Named people for administering medicines:

Lisa Lynock
Marcella Sully
Jackie Stillings
Lynne Le Marinel
Susan Beesley
Lisa Greenwood
Susan Houghton
Rosemary McKenzie
Sharon Parr
Jayne Wallis

All staff have been trained in the use of adrenalin pens and asthma awareness. Staff responsible for supporting children with diabetes have also been trained.

The following table details specific qualifications:

Policy:	Supporting Pupils at School with Medical Conditions			Page 21 of 33

Appendix 'A'

Parental agreement for school to administer medicine

The school/setting will not give your child medicine unless you complete and sign this form, and the school or setting has a policy that the staff can administer medicine.

Name of school/setting	Farnworth CE Primary School
Name of child	
Date of birth	/ /
Group/class/form	
Medical condition or illness	
Daily care requirements (e.g. before sport/lunchtime)	
Describe what constitutes an emergency for the child, and action taken if this occurs	

Medicine

Note: Medicines must be the original container as dispensed by the pharmacy

Name/type of medicine <i>(as described on the container)</i>	
Date dispensed	/ /
Expiry date	/ /
Agreed review date to be initiated by	[name of member of staff]
Dosage and method	
When to be given	
Any other instructions	
Timing	
Special precautions:	
Are there any side effects that the school/setting needs to know about?	
Self administration	Yes / No
Procedures to take in an emergency	

Contact Details

Name	
Daytime telephone no.	
Mobile telephone no.	
Relationship to child	

Supporting Pupils at School with Medical Conditions
APPENDICES

Address

Who is the person to be contacted in an emergency (state if different for offsite activities)

Emergency telephone contact no.

Name and phone no. Of GP

I understand that I must deliver the medicine personally to

[agreed member of staff]

I accept that this is a service that the school/setting is not obliged to undertake.

The above information is, to the best of my knowledge, accurate at the time of writing and I give consent to the school/setting staff (or my son/daughter) administering medicine in accordance with the school/setting policy. I understand that I must notify the school/setting in writing of any change in dosage or frequency of medication or if medication is stopped.

Date _____

Signature(s) _____

Appendix 'B'

Head teacher Agreement to Administer Medicine

Name of school/setting

Farnworth CE Primary School

It is agreed that _____ [name of child] will receive
_____ [quantity and name of medicine] every day at
_____ [time medicine to be administered e.g. lunchtime or afternoon break].

_____ [Name of child] will be given/supervised whilst he/she takes
their medication by _____ [name of member of staff].

This arrangement will continue until _____ [either
end date of course of medicine or until instructed by parents].

Date _____

Signed _____

(The Head teacher/named member of staff)

Appendix 'C'

Request for child to carry his/her medicine

THIS FORM MUST BE COMPLETED BY PARENTS/GUARDIAN

If staff have any concerns discuss request with healthcare professionals

Name of school	Farnworth CE Primary School
Name of child	
Date medicine provided by parent	/ /
Group/class/form	
Name of medicine	
Procedures to be taken in an emergency	

Contact Information

Name	
Daytime telephone number	
Relationship to child	

I would like my son/daughter to keep his/her medicine on him/her for use as necessary.

Date _____

Signed _____

If more than one medicine is to be given a separate form should be completed for each one

Appendix 'D'

Record of Medicine Administered to an Individual Child

Name of school	Farnworth CE Primary School
Name of child	
Date medicine provided by parent	/ /
Group/class/form

Authorisation for the administration of rectal diazepam

Name of school	Farnworth CE Primary School
Child's name	
Date of birth	
Home address	
GP	
Hospital consultant	

_____ (name of child) should be given Rectal Diazepam
mg.

If he/she has a *prolonged epileptic seizure over___ minutes.

OR

*serial seizures lasting over ___ minutes.

An ambulance should be called for *at the beginning of the seizure

OR

If the seizure has not resolved *after___ minutes.

(*please delete as appropriate)

Doctor's signature:	
Parents signature:	
Print name:	
Date:	

NB: Authorisation for the administration of rectal diazepam

As the indications of when to administer diazepam vary, an individual authorization is required for each child. This should be completed by the child's GP, Consultant and/or Epilepsy Specialist Nurse and reviewed regularly. This ensures the medicine is administered appropriately.

The authorization should clearly state:

- When the diazepam is to be given e.g. after 5 minutes; and
- How much should be given

Included on the Authorization Form should be an indication of when an ambulance is to be summoned.

Records of administration must be maintained (see appendix 'D' & 'E')
Appendix 'G'

Appendix 'H'

Contacting emergency services

Request an ambulance - dial 999, ask for an ambulance and be ready with the information below.

Speak clearly and slowly and be ready to repeat information if asked.

1. your telephone number
2. your name
3. your location as follows:
Farnworth CE Primary
Pit Lane
Widnes
WA8 9HS
4. state what the postcode is – WA8 9HS please note that postcodes for satellite navigation systems may differ from the postal code
5. provide the exact location of the patient within the school setting
6. provide the name of the child and a brief description of their symptoms
7. inform Ambulance Control of the best entrance to use and state that the crew will be met and taken to the patient
8. put a completed copy of this form by the phone

Appendix 'I'

Further Sources of Medical Information

Anaphylaxis

The Anaphylaxis Campaign website contains Guidance for schools, which discusses anaphylaxis, treatment, setting up a protocol, and support for pupils and staff. It also includes a sample protocol. The Anaphylaxis Campaign Helpline is 01252 542 029. The Anaphylaxis Campaign has also published the Allergy in schools website which has specific advice for pre-schools, schools, school caterers, parents, students and nurses.

Diabetes

Diabetes UK has information on diabetes in school, which discusses insulin injections, diet, snacks, hypoglycaemia reaction and how to treat it. It contains a downloadable version of their school pack, Children with diabetes at school — what all staff need to know. Copies of this can also be ordered from Diabetes UK Distribution, telephone 0800 585 088. Further information is available from Diabetes UK Care line, telephone 0845 120 2960 (Monday — Friday, 9a.m.-5p.m.) or see the Diabetes UK website for an enquiry form.

Eczema

The National Eczema Society has produced an activity pack, available on TeacherNet, to encourage discussion about eczema in the classroom. The pack follows a lesson plan format and ties in with the National Curriculum and is tailored according to age group.

Epilepsy

Epilepsy Action (British Epilepsy Association) has information for schools in Epilepsy — A teacher's guide. This looks at classroom first aid, emergency care, medication, and school activities. For further information is available from the freephone helpline on 0808 800 5050 (Monday-Thursday, 9:00 am — 4.30 pm, Friday 9:00 am — 4:00 pm) or use the email enquiry form.

The National Society for Epilepsy (NSE) has information on education and epilepsy which looks at epilepsy and learning, special needs examinations, practical activities, medication, the Disability Discrimination Act, and teaching pupils with epilepsy. Contact the UK Epilepsy helpline, telephone 01494 601 400 (Monday-Friday 10:00 am — 4:00 pm.)
