Safe internet rules

S Be Safe
Keep your personal information safe and secret. Think carefully before you share a photo of yourself or your friends.

M Don't Meet Up
Never arrange to meet an online friend because it can be dangerous. No matter how well you think you know people, they might be pretending.

A Accepting Emails can be Dangerous
If you receive junk mail (called Spam) or messages which make you feel uncomfortable, tell an adult that you trust and delete them. Don't reply to them!

R Reliable?
The Internet is full of friendly people and amazing information. However, sometimes people might say or write things which are untrue, so you should always think carefully before trusting what you see or hear.

T Tell Someone!
Most of the time that you are online, you will have lots of fun. However, if you see something that makes you feel uncomfortable or worried, make sure that you tell an adult who you trust.

e-Safety officers 2019

What is e-Safety?

e-Safety means electronic safety. e-Safety is important because it helps to keep children safe so they can enjoy, explore and have fun!

The Internet is great because:

- You can learn lots of things.
- You can have lots of fun.
- It can help with our school work.
- You can stay in touch with friends and family.

Some online dangers include:

Cyber Bullying—nasty text

messages and emails, swearing on X boxes/play stations/on-line games.

Stranger Danger—people who we talk to on-line, we don't know them, so they are strangers.

Bad Language—sometimes when we are on-line, we can see or hear swear words that might upset us.

Content Online—some material on-line is not suitable for children to look at.

Viruses—some e-mails can contain viruses.

When we are on-line, we should:

T-is it true?

H-is it helpful?

I-is it inspiring?

N-is it necessary?

K-is it kind?..
