

What if my child has additional needs?

All learning opportunities within EYFS are inclusive. Teachers and support staff enable children to access learning that is appropriate to the level of their need. Parents/carers of children with additional needs will meet with the class teacher to best discuss learning opportunities for their child and how to access and support their learning process. If needed, the class teacher will be able to signpost the parent to external support.

Miss Le Marinel is the school's SENDCo and is available to discuss any concerns parents may have regarding additional needs.
