

P.E. & SPORT FUNDING

Liscard Primary School – September 2018 Provisional Data

P.E. and Sport Funding

Funding Allocation

From September 2013 Liscard Primary School has made use of additional government funding to enhance and improve our P.E. and Sport provision. £10,730 was allocated for 2017/18. This year (2018/19) we have been allocated £21,370.

How we spent the funding 2017/18

It is up to schools to determine how best to use this funding; here are some of the ways we have used it this year. We feel the funding has allowed us to extend and enhance our provision which has benefited all our children. (If you have any suggestions or comments about how the funding could be or is used, please let us know through our Parent Focus Group or by speaking to any member of the Senior Leadership Team or Mr Murphy.)

- Our excellent sports provision has been recognised with Sports Mark Gold Mark in 2015/2016/2017/2018.
- Weekly, high quality specialist P.E. and sport lessons are provided for all children at Liscard Primary School. Lessons are well planned, differentiated and active. Children's abilities are assessed regularly to inform future planning.
- We have embedded the Golden Mile programme across key stages and trained 20 Golden Mile Leaders to help facilitate the programme. The aim of which is to enhance health and fitness for all children.
- A wide range of playground activities are provided to our children. These activities further promote healthy, physical habits to our children giving them opportunities to taste varied sports in either a non-competitive or competitive setting.
- Specialist coaches are also employed to lead a wide range of **pre** and **after school** sports clubs for all children (see menu of activities).
- A sports technician is employed to support our P.E. and sports provision during lunchtime and curriculum time last year.
- Our Sports coaches also provide training and support for staff and our P.E. leaders to improve their confidence and competence in teaching P.E. and sports.
- We have attended a range of competitions, festivals and tournaments across the Wirral involving many of our pupils.
- 69% of KS1 children have represented the school in inter-school sport. 79% have represented the school in KS2.
- All P.E. and sports provision is jointly monitored by Premier Sports and the school's Senior Leadership Team to ensure high quality provision.
- We have sign-posted children to many of our local clubs where they can extend and develop their knowledge and skills e.g. Football clubs, Dance and Drama clubs, Gymnastics club.
- All clubs are subsidised to ensure they are accessible to all pupils; 77% of our pupils have attended a club during the year.
- Attendance at any club has been credited towards the nationally recognised Children's University Scheme.
- Medals and certificates were awarded in the summer term to children 184 children. These children had accumulated a significant number of hours that demonstrated commitment to a variety of sports clubs both in school and beyond the school setting.
- Lunch-times and play-times are supported by P.E. coaches and staff that are trained in playground games.
- Midday Assistants are trained play-leaders and are supported by specialist coaches.
- We have trained a number of our Year 5 and Year 6 pupils to take on the role of young play-leaders and sports leaders.

- 47% of Year 3 to 6 pupils have experienced delivering local cluster competitions.
- A range of equipment and resources have been purchased for lunch-time activities and our P.E. and sport curriculum.
- All Key Stage 2 children learn to swim; additional support is provided for any Year 6 pupils who are unable to swim.
- We provide a number of opportunities for our children to take part in outdoor and adventurous activities.
- We organise and host a range of inter-school sport competitions for the Wallasey area e.g. swimming, netball, football, handball, rugby, athletics and mass participation sport festivals for schools.
- We have greatly enhanced the quality and quantity of our sports and P.E. provision across the school with the funding which has resulted in very active children who love a range of P.E. and sports activities.

Impact of P.E. and Sports Funding 2017/18

Assessments in P.E. and Sport

All children have been assessed during the year and have an overall judgement for the end of year. The majority of children are working at a level which is age appropriate with many working above expected levels for their age. There is clear evidence of children making good progress during the year. Our pupil questionnaire responses highlight the children's enjoyment of their P.E. and Sports sessions.

Data Curriculum

The funding has now facilitated the teaching of P.E. by specialist sports coaches from Foundation 2 to Year 6. This coaching offers teaching staff opportunities to develop their knowledge of teaching P.E.

Liscard Primary employed a sports apprentice to enhance the delivery of teaching P.E. and to provide further opportunities for extra-curricular activities. He offered coaching to gifted children whilst further enriching the quality and variety of the provision of sport across the school.

Children's University Celebrations

We celebrate the time children have devoted to developing a range of new skills and knowledge. They attend accredited courses during the year, offered through school as well as those attended through other organisations, and collate their time spent on each course. This is then totalled and summarised at the end of the year so that their efforts can be celebrated during a special ceremony. The children are presented with certificates and medals linked to the Children's University programme.

Liscard Primary had over 180 children receive an award this year. This is further indication of the impact our provision is having on encouraging pupils' active lifestyles.

Scholarships

Four children across KS2 were funded for a one-year scholarship with Wirral schoolboys.

Staff Training

Staff trained to support and facilitate P.E. and sports resulting in many staff organising and supporting a range of events.

Use of P.E. and Sports Funding at Liscard Primary School 2018/19

Aims for 2018–19

We have five key aims for the use of the sports funding:

1. Improve children's achievement and enjoyment in sports and physical education.
2. Improve the quality of physical education teaching by allowing our staff to work with high quality sports coaches who are trained in the delivery of the national curriculum. This will ensure that the funding has a legacy as our staff will become better trained in delivering P.E.
3. Continue to improve our children's engagement with competitive sports through a structured programme of sports competitions and festivals with our local cluster of six primary schools.
4. Ensure that our children can access a wider range of extra-curricular sports clubs. These will be at a subsidised rate. This will increase their participation and improve their health and well-being.
5. To recognise children's involvement in active lifestyles and activities through Children's University and awards.
6. To introduce a focused program of activity related to health and well-being (healthy eating and lifestyles).

We will be monitoring all of these indicators during the year and evaluating their impact by:

- Tracking levels of participation.
- Assessing children's achievement in physical education and sports.
- Assessing children's attitudes towards sports and their health.

- Swimming in year Key Stage 2 is compulsory. Our explicit aim is that every child should be able to leave primary school able to swim independently.
- Year 6 provision will only be targeted at those children whose swimming requires improvement.

Number of children who can swim competently, confidently and proficiently over a distance of at least 25 metres within Year 6 cohort in 2017-2018	74	81%
Number of children who can use a range of strokes effectively	71	78%
Number of children who can perform safe, self-rescue in different water-based situations	73	80%

- Cycling proficiency training in years 5 and 6. Again we have an explicit aim that every child who participates (this is a voluntary activity) will leave primary school able to cycle and trained to cycle on the roads safely.
- Whole school tennis coaching.
- Subsidised residential activities to provide tuition in water sports, climbing, abseiling etc.
- Staff training to support and facilitate P.E. and sports resulting in many staff organising and supporting a range of events throughout the year.

How the money is spent.

School Sport

1. We have **employed highly qualified sports coaches** and a Sports Technician to work with our teachers to deliver high quality weekly sports lessons across the curriculum. These will cover the whole range of teaching from Foundation 2 to Year 6. Our coaches also deliver a range of extra-curricular clubs every week.

2. Facilitating sports competitions

We have developed the following calendar of sports competitions across the school for the coming year.

We aim to: -

- Develop skills through high quality coaching and teaching.
- Identify talent and introduce rules of games through intra school competitions. All teams are mixed gender teams. Every child in the school will participate in these.
- Invite selected pupils to take part in an inter school competition within our cluster of six local primary schools. They are: New Brighton, Greenleas, St. George's, St. Peter & Paul's RC Primary School and Mount Primary. We expect over 600 children to participate in these. We have altered events to develop inclusion and excellence with a focus on disadvantaged participation.
