

Curriculum Intent

At Oak Green School we strive for everyone in our community to see themselves as learners and to inspire all to have self-belief in their ability.

We provide first hand learning experiences that allow children to develop interpersonal skills and build resilience. Our cross-curricular approach enables our children to make meaningful links with their learning.

We have created a progressive cross-curricular approach to meet the needs of all learners, challenging them at all levels to aim high and take a risk. Our curriculum aims to unite in diversity, encouraging cultural awareness, challenging stereotypes, respecting rights and building a sense of community.

We inspire our children to see learning as a personal journey where there are no limits to what they can achieve. We nurture learners' roots to support growth and take pride in their achievements both personally and across the curriculum. We aspire for our learners to have the determination and perseverance to achieve their full potential.

We promote a learning community, working together to turn barriers in to stepping stones, encouraging trust, support and independence.

Our Golden Values, PSHE lessons and assemblies promote positive attitudes which reflect the values and skills needed for future learning and success.

We are preparing our children for the next stage of their future, opening the doors to endless opportunities. As a result of our language and opportunity rich curriculum, our children will achieve their full potential ready for secondary school.
