Urgent Advice to ALL PARENTS/ CARERS

Covid 19 'single case' at Oak Green School

Dear Parents,

We have been advised by Public Health England that there has been a confirmed case of COVID-19 in **an adult in Year 2** at the school.

We are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) is a mild illness.

Year 2 will be closed from Monday 14th - Wednesday 23rd Sept.

The school remains OPEN to Nursery, Reception, Year 1, Year 3, 4, 5 and 6.

Providing that your child remains well they must continue to attend school as normal.

We will keep this under review.

What to do if your child develops symptoms of COVID 19

If your child develops symptoms of COVID-19, they should remain at home for at least **10 days** from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119.

All other household members who remain well must stay at home and not leave the house for 14 days. The 14-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home. Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able, you can move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period

Symptoms - The most common symptoms of coronavirus (COVID-19) are recent onset of:

- a new continuous cough and/or
- a high temperature
- a loss of, or change in, normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child or anyone in the household does develop symptoms, you can seek advice from NHS 111 at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19:

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further Information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

From Monday we ask for your cooperation in ALL PARENTS of all year groups, dropping-off and collecting to please WEAR FACE-COVERINGS.

Thank you. We apologise for the huge disruption to your family and working lives again. We will provide updates regularly.

Yours sincerely,

Mrs J Garrett

Headteacher
