Heads of School: Mrs. Sally Roscoe and Mrs. Clare Rodenas

To: Parents/Carers of Ash Class

18th October 2019

Dear Parents/Carers

Muck, mess and mixtures

We're warning you; this is going to get messy!

Next half term we will:

- Have a messy afternoon to investigate mixtures, from paint and toothpaste to jelly and shaving foam and ...slime!
- Enjoy the story of *George's Marvellous Medicine* and write recipes, leaflets, lists and stories of our own.
- Use our science skills to explore everyday materials, investigate soap products and understand why mixtures freeze and melt.
- Learn how to measure accurately using scales, measuring jugs and cylinders. We'll taste a wide variety of foods, learn about healthy eating and follow recipes to make some yummy treats including pizza and ice cream!
- Use our mixing skills to create our artwork.
- Use marbling inks to make unusual patterns, create food landscapes inspired by Carl Warner, paint with ice cubes, model clay into exciting shapes and use a variety of materials to make mixed media collages.

At the end of our project, we'll turn our classroom into a gallery and invite you to view our exhibition.

Help your child prepare for their project.

Muck and mixtures can be messy and magical! Why not make a variety of fun recipes to reveal how mixtures can come together and change? Trifle, gooey cookies and bread would all be good to try. You could also invent a new soft drink. Mix, shake and stir a range of fruit juices, cordials and sparkling water together and taste each one. Pick the best and give it a groovy name. Alternatively, try making different bubble mixtures to see which make the biggest bubbles!

Enjoy!

Kind regards

Mrs Went
