“Living and Learning in the Family of God”

14th February 2020

Dear Willow Parents/Carers

Scrumdiddlyumptious!

This coming half term we are going to enjoy a yummy journey of discovery, sampling foods and learning how to keep our bodies healthy. We will investigate where our food comes from, try new foods and learn about fair trade. Our Science work will focus on food groups and learning to eat a healthy balanced diet as well as the structure of our bodies and how muscles work.

In English we will be reading ‘Charlie and the Chocolate Factory’ together. We will be writing a missing chapter for the book, creating a persuasive advert and making up some poems all about food. Our Maths work will first focus on using our number skills to find lengths of sides and the perimeter of shapes and then move on to looking at fractions.

Kind regards

Mrs Algar and Mrs Arthur
