17th December 2019

Dear Maple Parents/Carers

New Topic for next half term is 'What happens when I fall asleep?'

Our new Maple topic for the next half term is based on 'Space' and 'Night time'.

Twinkle, twinkle, little star. Why are there stars in the sky at night? Does everyone go to bed at the same time? It's time to find out more about the sky at night.

We will:

- snuggle up with comfy cushions and blankets, we'll listen to bedtime stories and nursery rhymes. Zzz...
- be wide awake once more and learn about people and services that work at night, planets, the Hubble Telescope, rockets and nocturnal animals.
- turn our role play area into a Space Center, ready to blast off to space!
- also find out more about how sleep and eating healthily can have a positive impact on our health.
- play with the shape and size of star patterns and create planets using play dough.
- at the end of the project, share and reflect on what we have learnt, and we'll use our knowledge and creativity to write all about it!

We would like to invite you all to come and listen to Maple perform their Space poems. You will receive an invite from the children soon giving more details.

Help your child prepare for their project

Why not do some stargazing together after dark? There are apps you can use on your phone to help you to identify stars and constellations! Alternatively, talk to people in your family who have worked at night. What are the similarities and differences between working in the day compared to at night?

Kind regards

Mr Brown and Miss Doughty
