Music	
<i>"Music gives a soul to the universe, wings to the mind, flight to the imagination, and life to everything." - Plato</i>	
<b>Why should children learn this subject?</b>	<p>Music plays an important part in all our lives. It is something we experience on a daily basis and defines us culturally. Music can invoke emotional responses- it can both calm and soothe, or stimulate and excite. Music engages us and holds our attention and interest. It allows us to relate to others and provides us with shared experiences.</p> <p>Recent studies have demonstrated that engagement with music can accelerate brain development in relation to the acquisition of language and reading skills, and that learning to play an instrument can increase mathematical learning. The benefits of music go beyond the academic however, enabling children to develop skills of communication, team-work, resilience, concentration and confidence.</p>
