## GEOMETRY: Position and direction

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Pupils should be taught to: <input type="checkbox"/> describe position, direction and movement, including whole, half, quarter and three-quarter turns.	Pupils should be taught to: <input type="checkbox"/> order and arrange combinations of mathematical objects in patterns and sequences <input type="checkbox"/> use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and	Pupils should be taught to: <input type="checkbox"/> recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn.	Pupils should be taught to: <input type="checkbox"/> describe positions on a 2-D grid as coordinates in the first quadrant <input type="checkbox"/> describe movements between positions as translations of a given unit to the left/right and up/down <input type="checkbox"/> plot specified points and draw sides	Pupils should be taught to: <input type="checkbox"/> identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.	Pupils should be taught to: <input type="checkbox"/> describe positions on the full coordinate grid (all four quadrants) <input type="checkbox"/> draw and translate simple shapes on the coordinate plane, and reflect them in the axes.

	distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).		to complete a given polygon.

## STATISTICS

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		Pupils should be taught to: <ul style="list-style-type: none"> <li><input type="checkbox"/> interpret and present data using bar charts, pictograms and tables</li> <li><input type="checkbox"/> solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.</li> </ul>	Pupils should be taught to: <ul style="list-style-type: none"> <li><input type="checkbox"/> interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.</li> <li><input type="checkbox"/> solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.</li> </ul>	Pupils should be taught to: <ul style="list-style-type: none"> <li><input type="checkbox"/> solve comparison, sum and difference problems using information presented in a line graph</li> <li><input type="checkbox"/> complete, read and interpret information in tables, including timetables.</li> </ul>	Pupils should be taught to: <ul style="list-style-type: none"> <li><input type="checkbox"/> interpret and construct pie charts and line graphs and use these to solve problems</li> <li><input type="checkbox"/> calculate and interpret the mean as an average.</li> </ul>

**RATIO AND PROPORTION**

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					<p>Pupils should be taught to:</p> <ul style="list-style-type: none"><li><input type="checkbox"/> solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts</li><li><input type="checkbox"/> solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison</li><li><input type="checkbox"/> solve problems involving similar shapes where the scale factor is known or can be found</li><li><input type="checkbox"/> solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.</li></ul>

**ALGEBRA**

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					<p>Pupils should be taught to:</p> <ul style="list-style-type: none"><li><input type="checkbox"/> use simple formulae</li><li><input type="checkbox"/> generate and describe linear number sequences</li><li><input type="checkbox"/> express missing number problems algebraically</li><li><input type="checkbox"/> find pairs of numbers that satisfy an equation with two unknowns</li><li><input type="checkbox"/> enumerate possibilities of combinations of two variables.</li></ul>
