

## **Design Technology at Pondhu School**

The 'Projects on a page' scheme underpins and reinforces the importance of Design and Technology to all pupils in preparation for tomorrow's rapidly changing society.

Design and technology is an inspiring, rigorous and practical subject. Using creativity and imagination, pupils at Pondhu design and make products that solve real and relevant problems within a variety of contexts, considering their own and others' needs, wants and values.

They acquire a broad range of subject knowledge and draw on disciplines such as mathematics, science, engineering, computing and art. Pupils learn how to take risks, becoming resourceful, innovative, enterprising and capable citizens.

Subject Leader: Kevin Dawes
