

Personal, Social and Health Education (PSHE)

PSHE enables pupils to become effective learners and supports them as they move from childhood through adolescence to become independent young people and effective citizens.

At Pondhu School, PSHE objectives are covered through our progressive Ethos, which encompasses our work as a Rights Respecting School (Level 1), and our Healthy School status in addition to providing for the Spiritual, Moral, Social and Cultural aspects of children's education. (SMRC)

Part of PSHE is the pupils' contribution to the whole-school environment, inside and outside. Responsibility for, and pride in, the whole-school environment is regarded as important.

Children have opportunities to gain confidence, through exploring and developing their understanding of key issues within;

-Health & Wellbeing

-Relationships

-Living in the wider world

Subject Leader: Mrs Victoria Burgess

Link Governor: Mrs Sandra Heyward
