SPELLING - MONDAY: WHAT IS AN UNSTRESSED VOWEL?

The Vowels

Spelling Words: Unstressed Vowels

You can have a good guess at how a word is spelt by sounding it out.

However, some words have vowels that are hard to hear when you say the word out loud. These are called *unstressed vowels*.

When writing these words, you might want to exaggerate the unstressed vowel to make sure you don't forget to write it.

chocolate

gardener

diamond

If you say these words out loud, you can't hear the vowels in bold, but when you write the word, the vowels in bold must be included.

These are unstressed vowels.

SPELLING ACTIVITY - TUESDAY
