

Curriculum Newsletter

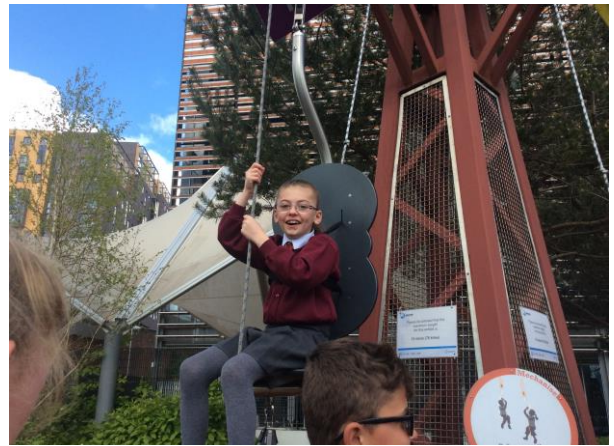

Year 4

Our NICER Challenge Pack this term is called: **Crazy Contraptions**.

The Challenge that our children will be undertaking is: **To design and create a product that solves a problem.**

The outcome of this will be to have a product that solves a problem either at home or in school.

This will happen at the end of Summer Term, on our whole-school outcome day (5th July).

Our week:

Maths and English will happen every morning.

Normally our Science lessons will happen weekly, during the afternoon.

PE is covered by swimming this term. Swimming is every Thursday morning, please make sure children have their kit and a towel each week on this day.

All other lessons will be taught through our NICER Challenge Pack.

NICER home learning should have come home to you this week. Please see your class teacher if you have any questions. We look forward to seeing the children's outcomes of their work, to be returned to school by **Wednesday 5th July 2017**.

The children really enjoyed visiting The Think Tank, a science museum in the heart of Birmingham. Children learned all about various ingenious inventions and gathered lots of ideas to use for their own projects.

F50: For this term's Fibbersley 50s, children will be creating a toy as well as running a shop, we look forward to seeing the results of these!

If you would like to know any further information about the NICER Curriculum, please visit our school website: www.fibbersleyparkacademy.org.uk
