

Shoreham Beach Primary School Primary School PE and Sport Premium 2018-2019

At Shoreham Beach Primary school we believe that physical education is essential for children's physical development and underpins their future participation in physical activity and sport. Physical education lays the foundations for children's health and mental well being and contributes to their personal, social and emotional development. Taking part in competitive activities builds character and helps to embed values such as fairness and respect as well as developing skills that allow children to work together.

Our vision is to develop healthy, physically and mentally literate children who love being physically active and move competently, confidently and safely and understand what they are doing and the impact that physical activity has on their long-term health. We also strive to ensure that children have a secure awareness of how physical well being is linked directly to mental well being.

Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport you offer. This means that you should use the premium to:

- Develop or add to the PE and sport activities that your school already offers
- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years.
