

Maths 1

WALT – divide by 2

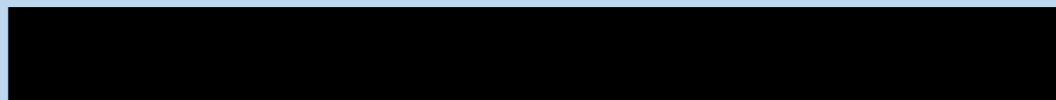

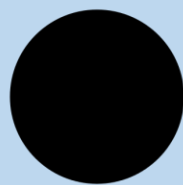

What is this sign?

How many different ways can you say it?

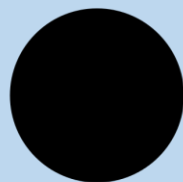

Divide

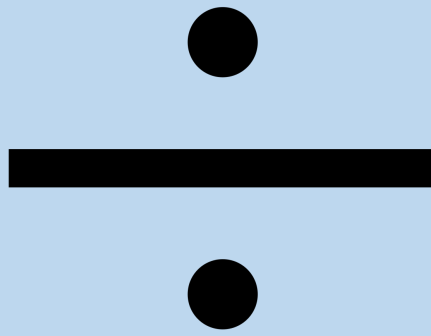

Shared
between

Split in to

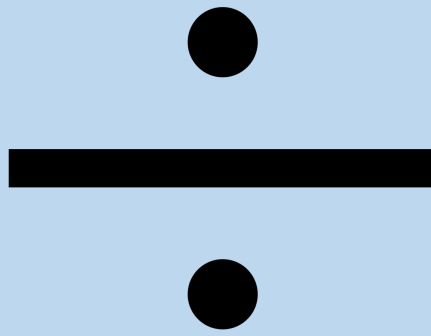

Cut in to

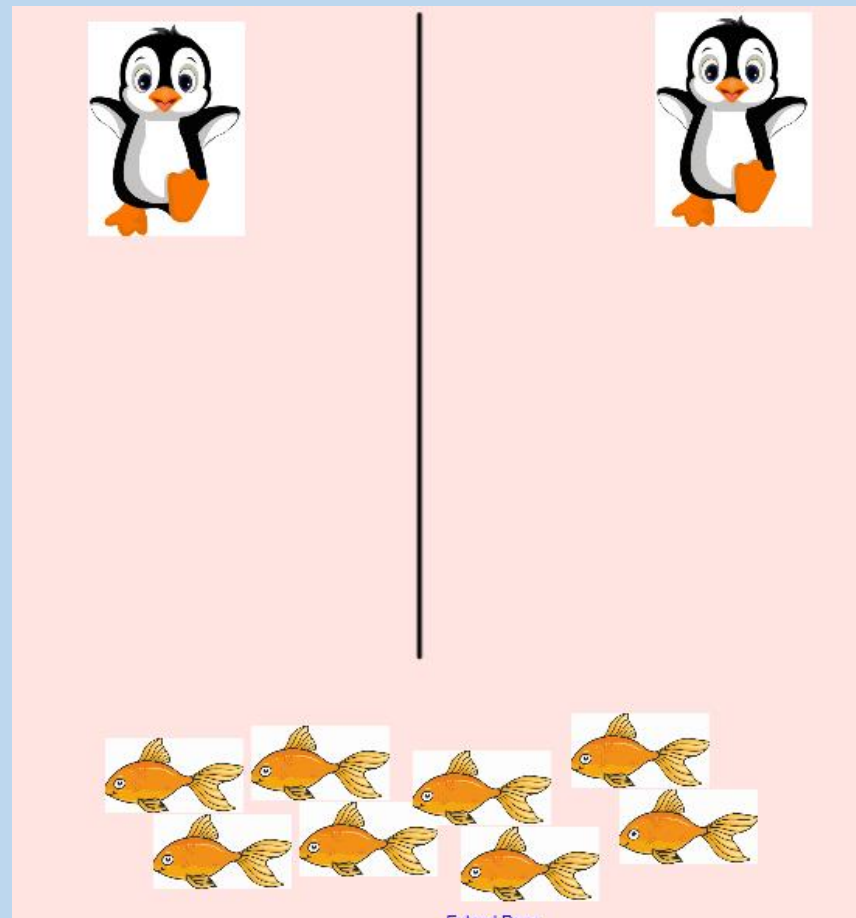

I have 6 sweets. I am going to share them between 2 children. How many will each child get?

Watch video on seesaw to see how I worked this out

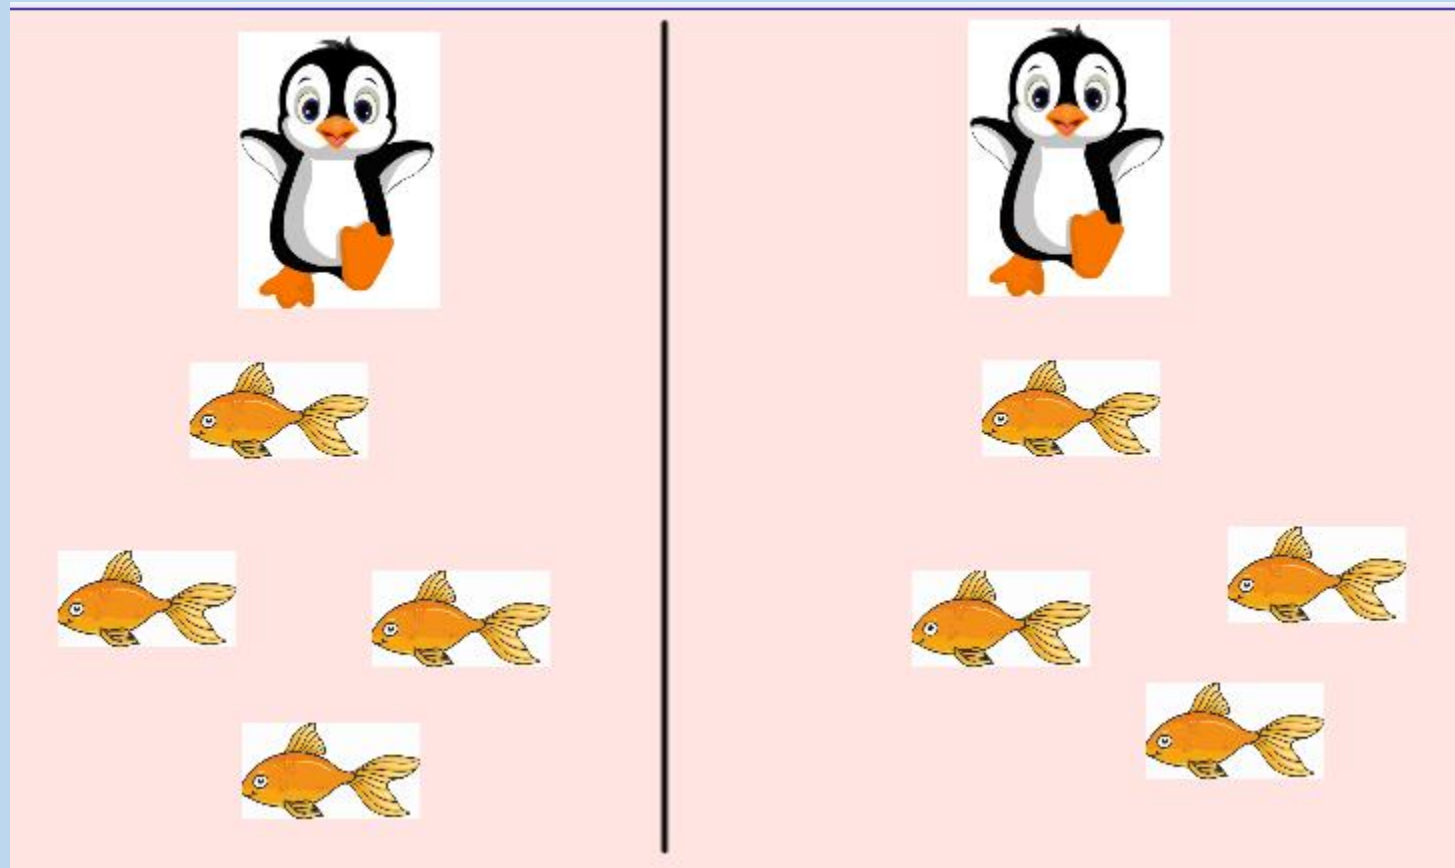

I have 10 sweets. I am going to share them between 2 children. How many will each child get?

Can you find something to work this question out the same way I did?

How many do we have altogether? 8
How many are we dividing them by? 2

$$8 \div 2 =$$

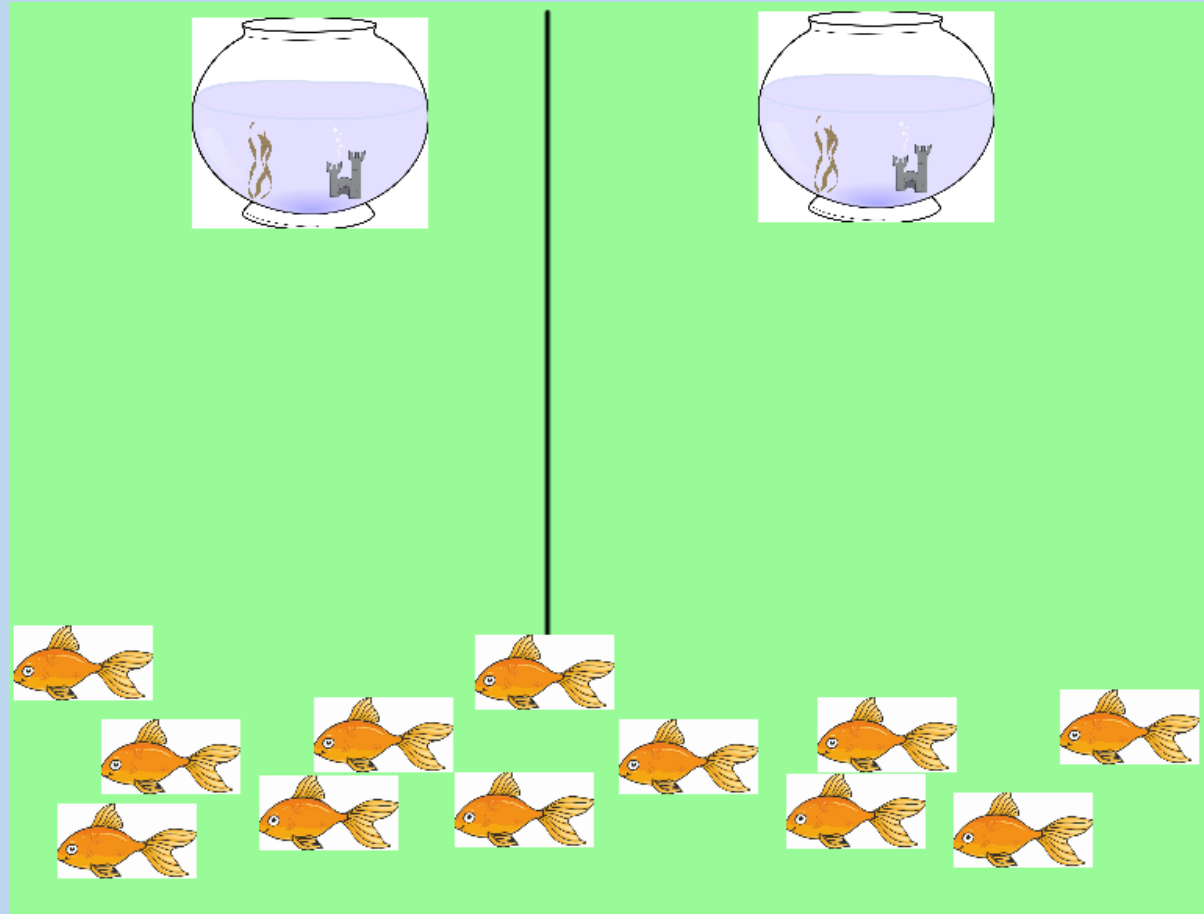

Have I split the fish equally?

How many does each penguin have? 4

$$8 \div 2 = 4$$

Can you try this one?

How many fish do you have altogether?
How many groups are you going to split them in to?
How many does each group get?

Choose mild or spicy

Can you work out the answers practically?

Mild

$$4 \div 2 =$$

$$6 \div 2 =$$

$$8 \div 2 =$$

$$10 \div 2 =$$

Spicy

$$8 \div 4 =$$

$$12 \div 4 =$$

$$10 \div 5 =$$

$$10 \div 2 =$$
