

Western Road Community Primary School Weekly English Plan

Class: Willow (Year 4)

Teacher: Miss Sheppard

Term: 5

Week Beginning: 27.04.2020 Week 2

	Topic	Activity
Monday	Science	<p>Have a go at making your own volcano! Create a mountain using card and papier-mâché. Place a plastic bottle inside it. For the eruption you will need: a small bowl, a cup, 1tbsp bicarbonate of soda (baking soda), 1tbsp washing up liquid, 2tbsp water, 1/2cup vinegar, 1tbsp red food colouring. Mix the bicarbonate and washing up liquid in a bowl. Pour into the bottle. In a cup, mix the vinegar and food colouring. When you are ready, pour the cup of vinegar into the bottle. Watch the eruption!</p> <p>Write up what you have done and what happened – you could try to use different amounts of bicarbonate and vinegar and see what happened!</p> <p>Feel free to take photos and add them onto Seesaw or send them via email!</p> <p>https://www.nhm.ac.uk/discover/how-to-make-a-volcano.html</p>
Tuesday	Topic	<p>Have a Roman Day! Dress up as a Roman (you could get an old sheet and wear it like a toga – Miss Sheppard has put some links below that show how you can make it with things at home).</p> <p>http://www.show.me.uk/editorial/1192-how-to-make-an-ancient-roman-toga</p> <p>https://www.ehow.com/how_5892498_make-ancient-roman-costume-kids.html</p> <p>Research what foods the Romans ate and see if you can have your own version of a traditional ientaculum (breakfast)!</p> <p>Research some information about Julius Caesar – who was he? Create a campaign poster for Julius Caesar, telling people to vote for him</p> <p>Use this website https://safeYouTube.net/w/Pfz8 to learn some Roman words!</p> <p>Put some photos up of your Roman Day! I am looking forward to seeing what you will all do! ☺</p>
Wednesday	Music PE	<p>Listen to Beethoven’s Moonlight Sonata made in 1801 https://safeYouTube.net/w/4ez8</p> <p>Listen to Muse’s Exogenesis: Symphony Part 2 made in 2009 https://safeYouTube.net/w/3fz8</p> <p>What can you hear that is similar? What can you hear that is different?</p> <p>Do you think you could make your own on this website? https://musiclab.chromeexperiments.com/Song-Maker/ Click the button at the bottom to get a piano.</p> <p>Miss Sheppard had a quick go, and these were the results! https://musiclab.chromeexperiments.com/Song-Maker/song/6507844925915136</p> <p>https://musiclab.chromeexperiments.com/Song-Maker/song/5014946673852416</p> <hr/> <p>Have a go at an online karate lesson! https://safeYouTube.net/w/Yjz8</p> <p>It starts by telling you about the session, then goes into warm-up and moves to some karate moves half way through, so stick with it!</p>
Thursday	Computing	<p>We are going to learn more about algorithms!</p> <p>Write down instructions on how to draw a shape or a picture (not obvious things – draw a sheep for example!) like we have done in class, but without the picture showing on the board.</p> <p>Ask another person to draw the picture next to your instructions.</p> <p>What went wrong? What do you need to change? Can you debug the algorithm and get someone else to have a go? Can you do create an algorithm for another picture that works better using what you have learnt?</p>
Friday	Art	<p>At school, we did some bubble paintings! Why don’t you give it a try?</p> <p>You will need cups, water, washing up liquid, paints, straws and paper!</p> <p>Put some paint, water and washing up liquid into a cup. Blow into the cup using the straw so bubbles appear above the top of the cup.</p> <p>Put the paper on the bubbles and take it off – keep going with other colours and you will end up with a beautiful painting!</p>
