

## Curriculum Statement – Depth

**Our curriculum at St Thomas' C of E Primary school is carefully designed, organised and planned for depth of learning:**

At St Thomas' Primary school our definition of progress is; the widening and deepening of essential knowledge, skills, understanding and learning behaviours. We design, organise and plan our curriculum to ensure that children are not merely covering content but achieving a depth to their learning which enables them to use their skills and understanding in all areas of the curriculum.

Our careful curriculum design and planning means that we build in many opportunities for repetition and practice opportunities for essential knowledge, skills and understanding in every subject. This ensures that children are able to revisit previous learning, which allows them to gradually develop a deeper understanding of the skills and processes within subjects, at their own pace and in the best possible way for each individual child.

Our curriculum is meticulously designed and planned to move the nature of children's thinking to a higher order deep level of understanding, rather than just acquiring new facts and knowledge.
