Year 2
Homework—Spring 2020

Art/DT

Find out about an animal and their habitat and create a picture.

Use clay or recyclable material to make a model of an animal and their habitat.

Maths

Make a tally chart of animal visits to your garden or local area for a week.

Homework focus

Science

Living things in their habitats

Geography

Continents and oceans

English

Find out about an animal and their habitat and create a fact file about where they live, what they eat and why they choose that habitat.

Science

Explore your garden or local area to discover what animals live there. Record them by drawing a picture and writing down some facts about them.

Geography

Research animals from different continents and oceans and try and find out why they are suited to their habitat.

Please return homework by Friday 28th February
