PRIMARY SCHOOL

Moral Development Policy 2017

Working together to succeed through faith in Jesus Christ

RATIONALE

At St Stephen's Catholic Primary School, we recognised that moral development is an intrinsic part of every child's education. The promotion of a child's moral development provides the framework for children to build their own understanding of the world and to make suitable decisions. In our school, we view moral education as a process of decision making based on conscience, self awareness and freedom of responsibility. Our understanding of morality is rooted in the willingness of an individual to see his or her own good in relation to that of others and through generous self giving, to the true fullness of life.

"The Lord Jesus came to live among us in order to show us the Father's love. His ultimate sacrifice testifies to his love for his friends. And the Lord's new commandment is at the centre of our faith: 'This is my commandment that you love one another as I have loved you'.

We, therefore, acknowledge that our approach to moral development will be a process that allows the child to gain a sense of the greater good and what is right and wrong. We endeavour to promote an awareness of conscience that is how our inner responses can form the foundation of moral decision making. It is also paramount that children in our care are made aware of the scope and the complexity of morality; the need to be well informed, to think rationally and impartially across the curriculum about moral issues and experience the use of values in the process of making moral decisions.
