29th September 2021

Dear Parents/Carers,

COVID-19 Updates

Please find attached a letter from Public Health Cornwall to all parents and carers across Cornwall.

At St Mary's we have the following in currently in place:

- Enhanced cleaning of touch points
- One-way systems for coming in and out of school
- Staggered break times
- We are currently splitting assemblies into EYFS/KS1 and KS2 groups in a well-ventilated hall.
- Face covering worn by staff and all visitors in communal areas if they cannot social distance

We do need parents and carers to social distance when collecting and dropping children off and once again we are urging all parents and carers to ensure they have had the vaccine.

Please remember to request PCR test of you or your child has ANY symptoms, however mild.

We are monitoring the situation and will work with Public Health as appropriate.

Our Outbreak Management Plan is on our website together with the current Public Health Guidance is on our website.

We still need to work together to keep everyone safe,

Thank you for your support,

Kind regards,

Hilary Tyreman
