

Home Learning Project -October Half Term

Return – Monday 5th November 2018 (after Kingswood)

To finish our North American Geography project, we would like children to create an A4 poster which shows a **comparison between Las Vegas and Gosport**. It can be created using ICT or by hand and it should be of high quality.

In the poster, we would like children to answer these key questions for Las Vegas and Gosport.

- Name of place?
- Population?
- Geographical features: physical features, water, animal life, landforms?
- Types of jobs
- Types of buildings
- Language?
- Currency?
- Any landmarks?
- Climate?

Children can include any images- hand-drawn or from the computer and they can include diagrams and tables to present their information.

They should consider any similarities and differences.

We are not sending any maths or spellings over the half term holiday but if children would like to do any maths they can use Times Tables Rockstars

Have a great half term
