We have identified all the pupils who are eligible for the funding from the school census. We target specific interventions to support children who are in receipt of the funding through pupil progress meetings, which take place periodically throughout the year. The strategy we use to target interventions is based on evidence from the Sutton Trust Educational Endowment Fund toolkit, showing the impact and value for money of a range of interventions and services. We calculate the progress of this key group of children, measuring and evaluating the impact of the interventions funded by the Pupil Premium budget.
