

Design and Technology

We will be:

- designing and making a moving toy using cam mechanisms.
- looking at different shaped cams and the movements created by them.
- learning about the engineering of the Eiffel Tower.

Art and Design

We will be :

- studying the work of George Seurat, in particular his pointillism work.
- focussing on the impressionists artist of Claude Monet and Berthe Moriset and use a range of art materials to create our own art work.
- contrasting older art work with more the modern work of Fernand Leger.

FRANCE

Music

We will be:

- studying the 'Carnival of the Animals' by Camille Saint-Saens.
- creating, performing and evaluating our own compositions based on chosen animals using selected instruments.
- singing traditional French songs.

Geography

We will be:

- using atlases to locate countries, cities and main geographical regions of the UK, Europe and the World.
- locating key human and physical features and compare and contrast these in different regions of France.
- using atlases, maps, globes and an eight point compass efficiently.

ICT

We will be:

- focussing on safety and learning about how to use technology safely, respectfully and responsibility.
- learn to recognise acceptable/unacceptable behaviour and identify a range of ways to report concerns about content and contact.
