Online safety – Top Tips

1. Know the age restrictions, they will help to ensure your child's safety.
2. Talk to your child about what they've been playing on, any uncertainties you can always check out using the web-sites below.
3. Stay positive! A strange, but great tip that is always mentioned with online safety. Staying open and honest means that trust can be built up, so if there is anything potentially dangerous, your child knows they can come to you.
