

The Victorians

1837 - 1901

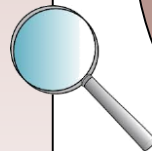

Here are just some of the exciting things we will experience on our journey!

Travel back in time with us to approximately one hundred and fifty years ago, the time when Queen Victoria sat on our throne and ruled the lands of Great Britain.

What was life like for a child in Victorian times? We will investigate this and compare it to life today by carefully examining artefacts, using books and the internet to research and speak to an expert in this period of history. We will look at schooling, work houses and some of the jobs children were expected to do. We will experience first-hand the life of a Victorian school child. Additionally, we will also compare Queen Victoria to our current Queen as well as discovering many of the inventions of the era.

We will research Florence Nightingale and apply this new knowledge to biography writing. We will be writing alternative endings to the story 'The Twisted Tunnels' and exploring some famous folklore.

As part of our Art and DT projects, you will be studying
...ask Charlotte
After looking at various toys through history, with a focus on Victorian toys, we will be researching, designing and making our own toys.

In Science, we will be exploring light and shadows. What sources of light can you think of? How does light travel?
We will find out about the parts of a plant and investigate what they need to live and grow.
