

## Science

We will name the parts of our body and use our senses to explore the world around us.

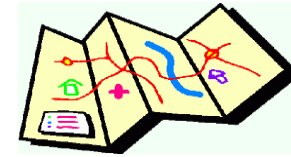

We will name the different sources of light and look at how shadows are formed. We will learn how to keep safe in the dark.

## ICT

We will design our own greetings card. We will learn how to change font and insert images.

## Geography

We will make maps of where we live and where this is in relation to school. We will use aerial photographs to recognise landmarks and identify physical and human features.

## PE

We will use our bodies to create dances that show different feelings and learn our dance for the Christmas Play.

We will learn how to roll and throw quoits and balls.

# Magical, Marvellous Me!

## Art

We will use photos of ourselves and mirrors to help us draw our own faces.

We will use pencils, chalk and paint to add texture and colour to the drawings of our face.

## Literacy

We will put actions to and learn poems about what our bodies can do. We will read the story 'Funny Bones' and create a 'five sentence story'. We will use this to create our own 'Funny Bones' stories.

## DT

We will visit a playground to investigate different playground equipment. We will use this to design and create our own playgrounds.

## History

We will use words and phrases relating to the passing of time. We will share and discuss our memory boxes/books and make a timeline of our family. We will learn about events beyond living memory by sequencing the events of the Gun Powder Plot.
