<b>April</b>	
Wednesday 19 <sup>th</sup>	8.45am Term starts

every room. Throughout the week the children will be exploring science in Maths, English, The Arts, Humanities, RE and of course as stand-alone science lessons. On 10<sup>th</sup> February, rather than an assembly at 2.40pm we invite our community to have a look around our science fair. All of the children in the school are invited to complete a science poster or display at home and enter it in the Science Fair.

There will also be a display from each class showing the work they

have completed during science week.

### PTA

#### Food Technology Room

We are continuing to put plans together for the Food Technology room that the PTA raised funds for last year. We have received quotes from a number of companies and are presently looking at the best options. Mrs Anne Terry is coordinating the plans. If you have expertise in the area of building or kitchen design and would like to have some input in this project please talk to Anne.

#### The Fantasy Garden

This year's fundraising will go towards landscaping and equipping a Fantasy Garden in the area outside of the school hall. If any parents have expertise in landscape or playground design and would like to assist in the planning stages for this project please let the school office know.

## Dear Parents

This week is our science week and already the children have been incredibly busy with scientific experiments in

# The Royal School

Loving to learn, learning to love, guided by God.

## Facebook Page

Please follow the link on the school web page to the PTA facebook page in order to keep up to date on all the fantastic things that are happening for our children.

## Valentine Disco

The next PTA event is the Valentine disco on 9<sup>th</sup> February. I am sure it is going to be a fantastic event for you and your children to enjoy. Please contact the PTA if you are available to help with this event.

## E-School Portal

Over the next week we will be sending home a user name and password for the school portal. Using your user name and password you will be able to log on using the link at the top of the school web page and view your child's attendance along with letters and newsletters that have been sent home. We will be using the portal to book appointments for parent teacher meetings on 21<sup>st</sup> and 22<sup>nd</sup> February. If you have not received your password by the end of the week please contact the school office.

## Parent workshops

The next parent workshop will go through the new assessment system that we are using in school. There will be a half hour presentation on the assessment system followed by the opportunity to ask questions. I hope you will join me at **9.15am on Tuesday 7<sup>th</sup> February.**

We are hoping to host a series of workshops on "Helping your child with anxiety". The workshops will be held over 6 weeks on a Tuesday morning. If you are interested in attending please let the school office know.

## Loving to Learn, Learning to Love, Guided by God

In our collective worship time it is such a pleasure to hear the children's ideas about God, themselves and the world. We have, at the Royal School, children that have a real empathy for what is going on in the world. We are continuing to follow the theme of respect over the next

month and we will be thinking about respect for others even when they think or act differently to us.

### ***Colossians 3:13***

*Do not be angry with each other, but forgive each other. If someone does wrong to you, then forgive him. Forgive each other because the Lord forgave you.*

**Yours sincerely**

**Mrs Bev Coombridge**
