

# Reading Together

Our new reading and phonics scheme Read Write Inc is well and truly underway and the children are really rising to the challenge. Books are now starting to go home for the children to practise with you and show you how well they are doing. Please sign their log and remember that the books will be needed each day in their lesson.

## P.E.

1MK - Wednesday

1L - Thursday

Please make sure your child has a **LABELLED** PE kit in school so they can take part. Black shorts and a white t-shirt. We will be exploring Gymnastics this term.

## Dojo

Please remember to log on to your child's Dojo to check their Smileys and our class story- where we post photographs and information about what we are doing in class.

## Homework

Please spend time each night listening to the book and going over the speed sounds, green words and red words. We are trying to encourage fluency and expression in their reading. They also need to be able to answer questions about the story they read. Please also use the Passport maths ideas booklet that we gave you on Parents night to help boost their mental maths.

If you ever need to talk then our doors are always open, just mention it in the morning as you drop off and, if needed, we will see you at the end of the day.

# Year 1

## Autumn Term Newsletter

We hope you all had a lovely half term break. As we start Autumn 2 we have an exciting term planned for your children including an author visit!

## Our Learning

Remember that Our

**Our topic this term is: Toys.**

We will be exploring the **History** of toys and discussing their own favourite toys. We will be asking them to find out information about older toys and games. We will be looking at toys our parents, grandparents and teachers used to play with.

Before the half term we looked at the *Geography* of Bidston and our local area. We discussed their own home and where to locate it using google maps, which they thoroughly enjoyed. Thank you for your help in writing their address and helping them to know where they live. We used our map to locate Bidston on the UK map and talked about the Wirral and Great Britain. In **maths** we will be continuing to develop our skills of addition and subtraction. We will also explore topics of money and time.

We will be exploring the seasons of Winter and Spring and we have already had fun learning about different **materials** in **Science**.
