

Dear Parent / Guardian

**Year 5 Health and Wellbeing Questionnaire**

In January 2018 we will be asking children in school year 5 across West Sussex to participate in an anonymous health and wellbeing questionnaire which they will complete in school.

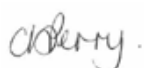

This is being conducted by the Healthy Child Programme (HCP) teams and aims to examine various aspects of children’s lives such as their health, strengths and emotional wellbeing; as well as questions about children’s diet, exercise, and leisure time.

The results of the questionnaire will provide information about children across the county and will be used to develop policies and improve services and information for parents and children. It will provide schools with information about the collective health and wellbeing of their pupils.

All information collected will be treated in the strictest confidence and it will not be possible for the HCP team to identify the responses given by individual children.

If you have any questions regarding the questionnaire or would like to discuss your individual child’s health and wellbeing please get in touch with a member of the team using the telephone number below.

Yours sincerely

Carole Perry

Acting Head of Healthy Child Programme (West Sussex)
