Parent Title Parent First Name Parent Last Name

Dear Parent/Carer,

It has been reported that pupils in both schools are showing flu-like symptoms and self-isolating. There are no diagnosed cases of Covid-19 in either school, but one family has been directed by the GP to self-isolate as a precautionary measure. We recognise that this is a very unsettling time, however, in line with Public Health England advice we are assured that the risk to others remains low and that it is safe for our schools to continue to be open. St Paul's and Walter Infants, along with Meadow Nursery, continue to follow in every respect the DfE, Public Health England and WBC advice and guidance.

Kind regards,

Mrs Taylor and Mrs Wheeler - Headteachers, St Paul's CE Junior School and Walter Infant School
