Bubbles

Keeping us safe at Sutton Primary School

Welcome Back!

What does it mean
coming back to school in
bubbles in September?

You are all in bubbles with your family at home.

Keeping yourself safe and socially distanced from others.

When you return in September you may feel worried.

Your bubbles will change a little.

You will arrive at school at the same time as those in your bubble.

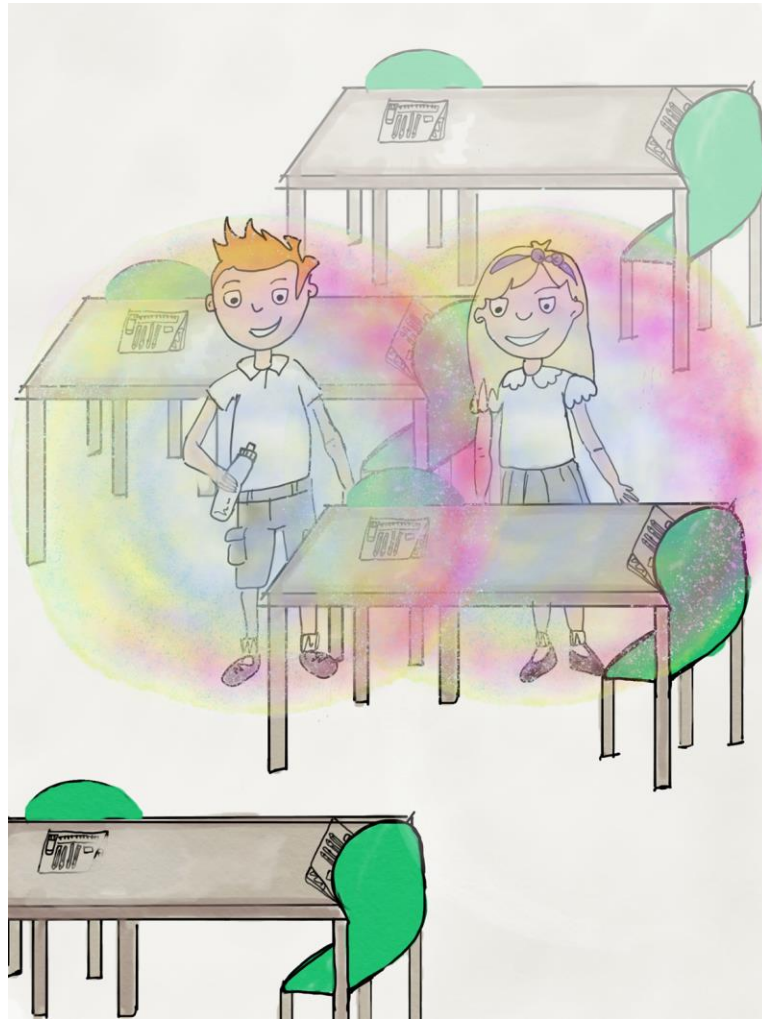

Using the same school entrance.

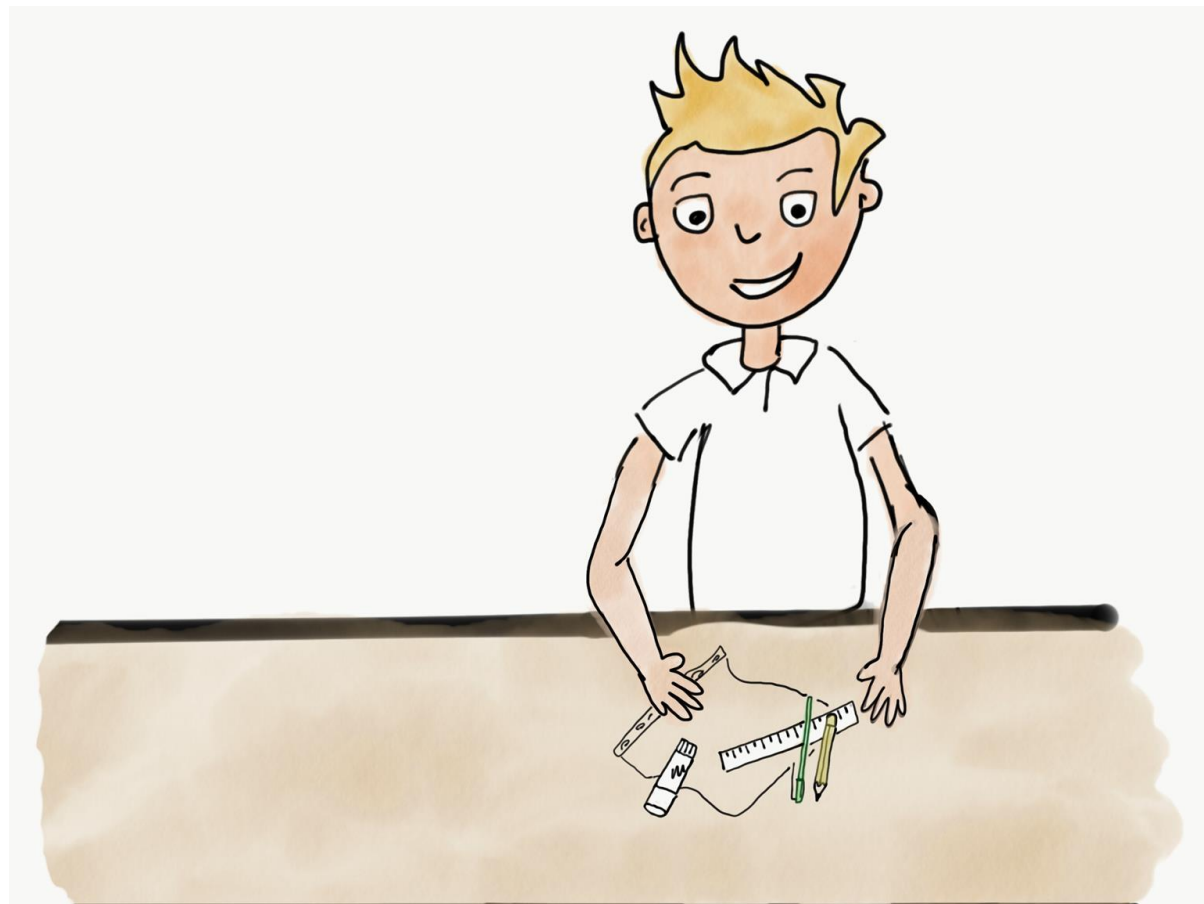

You are in a bubble with your class.

Your room may look a little different.

Your teachers will still make learning fun.

You will have your own pack of resources.

You will be asked to wash your hands often, just like you have at home.

At playtime and lunchtime your bubble will include your whole year group.
