

### **What difference has having a Primary PE Specialist in your school made?**

All staff have continued to become upskilled in areas of PE identified in our continuing professional development plan.

We were able to benefit from specialist knowledge during INSET (*IN-Service Training day*) focussing on developing high quality PE sessions including skills assessment. During this identified further training we would like in the future (dance).

Working with Chloe our Primary PE Specialist has meant that we have been able to implement the changes to the curriculum across all key stages;

- PE fundamental skills becoming part of our practice in EYFS and Key Stage One,
- Introducing skills development through new contexts in Key Stage Two; which has utilised Chloe's expertise in planning and teaching.

We have also been able to offer a greater range of before and after school sports clubs, utilising Chloe's skills to directly impact on children's provision.

Throughout the year Chloe has facilitated focused professional discussion with staff and leaders which has been centred on school improvement.

### **What has been the main impact?**

- Knowledge and skills gained by all teaching staff. Significantly Chloe has been able to work with our newly qualified teacher this year to ensure continuity of provision across the school.
- There is now a greater variety of sporting contexts used within teaching sessions.
- There is now greater variety in provision of sporting clubs outside the school day
- This year has seen increased participation in competitions within the cluster and local area.
- The school has been awarded the Youth Sports Trust Silver award and is now working towards the Gold award.

### **How else could we use the sports premium funding to benefit the school in the future?**

To ensure continued professional development in line with our school needs it is essential that we continue to work with the same Primary PE Specialist next academic year particularly to support new staff.

The PE Specialist will be able to support our PE subject leader with assessment and continue the work planned for our school, working with the school teaching team to embed further the progress we have made this year.

**Income £8,695 for 2015-2016**

Sports Premium funding is received in two payments each year, Autumn Term and Summer Term therefore crossing two academic years.

Strategy	Rationale	Cost	Impact
Transport to events	Transport to local events allowing greater access to competitive events	£562.00	Success in cluster sports festivals and inter school sports events. We know our children derive enormous benefit and sporting friendship opportunities from these activities.
Scheme of work	Development of curriculum in line with National Expectations	£295.00	Consistency of lessons across the school.
Resources	Development of resources, including swimming, to support curriculum teaching	£561.19	Lessons are well equipped to meet learning needs. All children within the school have swimming lessons during the year.
