

Alfriston School

Assessment Policy

Agreed by teaching staff: June 2019

Vision

Alfriston School's assessment procedure assesses pupils against the National Curriculum Objectives. Pupils are assigned a standard based on their achievement within the objectives taught.

1 The principles and aims of assessment

There are three broad overarching forms of assessment. These are:

- Day-to-day in-school formative assessment, including questioning, feedback and marking of pupils' work, observational assessment, and scanning of pupils' work.
- In-school summative assessment, including end of year/topic tests, and termly reviews for every pupil.
- National Curriculum tests at the end of Key Stage 2; National Curriculum teacher assessments at the end of Key Stage 1; Phonics Screening Year 1 and some Year 2 pupils; EYFS end of year assessments.

The primary purposes of day-to day formative assessment are:

- To help **pupils** measure their knowledge and understanding against learning objectives, and to identify where they need to target their efforts to improve.
- To enable **parents** to be provided with a broad picture of where their children's strengths and weaknesses lie, and what they need to do to improve. This reinforces the partnership between parents and the school in supporting their children's education.
- To enable **teachers** to identify when pupils are struggling, when they have consolidated learning, and when they are ready to progress. It supports teachers to provide appropriate support or enrichment as necessary, and enables them to evaluate their own teaching and plan future lessons accordingly.
- To assure **school leaders** that every child will be appropriately supported and planned for to make progress and meet expectations.

The primary purposes of in-school summative assessment are:

- To provide **pupils** with information about how well they have learned and what knowledge and skills they have acquired, and how they can continue to improve.
- To inform **parents** about the achievement and progress of their children over a period of time.
- To enable **teachers** to evaluate pupil learning at the end of a period, and to plan for subsequent teaching and learning.

- To enable **school leaders** to monitor the performance of individual pupils and pupil groups, to identify required interventions, and to work with teachers to ensure that all pupils (eg. Pupil Premium and SEND) are supported to achieve sufficient progress and expected attainment.

The primary purposes of nationally standardised summative assessment are:

- To provide **pupils** and **parents** with information on how pupils are performing in comparison to pupils nationally, and to provide **parents** with information on how the school is performing in comparison to schools nationally.
- To help **teachers** understand national expectations and assess their own performance in the broader national context.
- To enable **school leaders** and **governors** to benchmark the school's performance against other schools locally and nationally, and make judgements about the school's effectiveness.

2 Arrangements for the governance, management and evaluation of assessment

The Assessment Policy is the responsibility of the Assessment Lead (the Headteacher) within the school and is reviewed by the teaching staff on a 2-yearly basis, or more frequently if necessary.

Class teachers are responsible for the ongoing assessment of curriculum subjects. Assessments of core subjects are recorded using the School Information management System (SIMS) as follows: Assessments for reading, writing, mathematics and science are reported 3 times each year. Assessments of non-core subjects are recorded against 'milestones' which focus on pupils' depth of learning and so cover over two years (end of Year 2, end of Year 4 and end of Year 6). The milestones are based on the national curriculum objectives and have been broken down to show progression. Assessments for pupils in the Early Years are made against the Early Learning Goals and these are recorded in SIMS.

Subject leaders are responsible for leading regular moderation of assessment of core subjects in school, working with class teachers and in collaboration with external agencies as appropriate, for example, schools within the alliance and School Improvement Partners/County Advisors to ensure that assessments are effective and supported by evidence. Regular monitoring (including lesson observations, scrutiny of planning and children's work, pupil interviews) by subject leaders and the school leadership team support the moderation of assessment.

The Assessment Lead within the school is responsible for ensuring that the reporting of assessments is up-to-date and that these form the basis for termly

Pupil Progress meetings during the course of the year, attended by the Assessment Lead/Headteacher, SENCo, Class Teacher and Support Staff.

The School Development Plan (SDP) sets out the priorities for assessment and moderation and the Headteacher reports whole school assessment overviews to the Governing Body who have responsibility for ensuring that the SDP is implemented rigorously.

3 Information about how assessment outcomes will be collected and used

Teachers will assess against the National Curriculum Objectives in reading, writing, maths and science and will give an overall standard for each pupil, based on the achievement within the objectives taught. Assessment data for reading, writing, maths and science will be submitted to the Assessment Lead via SIMS whole school tracking system at the end of every other term (Term 2, 4 & 6) followed by a pupil progress meeting to further discuss the progress of each child. For some pupils with specific learning needs, it may be necessary to collect additional information, such as reading ages or test results, using a range of resources.

Assessment data and class team discussions at the termly pupil progress meetings will be used to plan interventions for pupils who are at risk of not making progress or achieving the National Standard by the end of the academic year. Specific next steps or objectives will be shared with pupils throughout the year and formally shared with parents in Term 3 (at Parent Consultation meetings and in the Mid-Year Report) and an overall standard will be shared in Term 6 (in the end-of-year Report).

4 Arrangements for ensuring teachers are able to conduct assessment competently and confidently

The school has an Assessment Lead (the Headteacher) who is responsible for ensuring that all teachers understand the school's assessment procedure and will facilitate training when necessary. The Assessment Lead keeps up to date with statutory changes from the DfE and good practice in other establishments and shares it with other staff. They are also responsible for reporting to governors regarding assessment in the school and liaising with colleagues in other schools, both locally and across County.

5 Approaches to different forms of assessment

The school embraces a growth mindset ethos and places great importance on our five agreed 'Life Values' – collaboration, curiosity, determination, creativity and independence. The teachers and support staff question pupils, assess their work, and listen to talk partner conversations in order to assess

their skills, knowledge and understanding in the current area of learning. This assessment determines whether the pupils work on consolidation or enrichment in follow-up lessons. It also enables the teacher to identify gaps and misconceptions so that the teacher can plan effectively for those lessons. Questioning and enrichment are influenced by Bloom's Taxonomy.

Teachers provide formative assessment to pupils through marking and feedback. Pupils are given regular time to respond to teacher marking and feedback, and to improve their work accordingly. Pupils are also encouraged to reflect on and assess their own learning, as well as that of their peers. See our Feedback 7 Marking Policy for more information.

See Appendix A for the Assessment Schedule.

6 **Implementation**

Assessment practices within the school have been developed by the school staff and discussed with pupils, parents and the Governing Body to ensure a shared understanding of the procedures and practice in school.

Parental understanding is important to enable them to support their children's learning. Outcomes of assessments are shared at Parent Consultation meetings twice each year and in the annual summative written report.

Practice and outcomes are shared in order to maintain a dialogue and to allow policy to evolve to allow for continuing improvement.

Appendix A**Assessment Schedule**

	Statutory Assessments	In School Assessments
EYFS	<ul style="list-style-type: none"> Early Years Profile 	<ul style="list-style-type: none"> Baseline Speech Link (as necessary) Language Link (as necessary) Ongoing phonics assessments (termly/as necessary)
Year 1	<ul style="list-style-type: none"> Phonics Screening 	<ul style="list-style-type: none"> Ongoing phonics assessments (as necessary) Ongoing Teacher Assessment using National Curriculum learning objectives Ongoing Teacher assessments using school 'Milestones' for all foundation subjects
