

Parents Information Evening Questionnaire Results and Comments

What did you find useful?

- The presentation by all staff, factual and professional comments.
- I found it all very useful thank you.
- The information was ALL very useful but I particularly liked the section in Growth Mindset, I think this is brilliant and is a great way to encourage children in their learning.
- To be finally put in the picture as to how my child was being taught, after months of being very disheartened with the school. As parents we just want to be kept informed so we can aid our children's education.
- Different speakers kept the presentation fresh.
- The information given was all very useful, informative and encouraging.

Parents Information Evening Questionnaire Results and Comments

- Interesting to find out about changes.
- Good to know about the changing curriculum and very nice to see how the teachers look way beyond that and at the bigger picture.
- Information on assessment without levels and year 6 testing requirements.
- As a first time parent of a child at the school I found this session very useful, it was presented at the right level. I thought the fact that all the teachers were included and presented different aspects was brilliant and very inclusive.
- The information about the change in assessment. I was most impressed by the presentations by individual teachers. These were very informative and set at the right level for me. The concept of the 'not yet/yet' and the Growth Mindset is exactly how I would have liked to have been taught.
- The positive change to lifelong learning.
- Being informed about the education system was interesting to me as I am more familiar with the NHS. I really like the Growth Mindset and will endeavour to carry this on at home.
- Ability to ask questions.
- Very informative.
- Really great to hear about the focus on learning habits and Growth Mindsets not just on how to attain higher and higher and get better test results.
- Very, very useful. Great to take home to support what you are doing at school.
- Opportunities to ask questions and hear parent concerns.
- Hearing the overall ethos of the school using a 'Growth Mindset'.
- Understanding the year 6 assessment system.
- I found the information about Growth Mindset very interesting and will be trying to use the ideas and language at home. I feel I understand the new assessment without levels as well as can be expected at this time!

What would you suggest to have made this even better?

- Nothing it was great.
- Copy of full presentation to take notes.
- An example of year 2 & 6 test papers for future years.
- Test paper examples would have been useful.
- Would like a printout/email of your info.
- No suggestions – very informative – thank you.
- A reminder on the day.
