

What Are We Learning In Class?

English

This week, we will be learning about powerful verbs. We will then retell the story of The Thief, the Fool and the Big Fat King by Terry Deary. We will use fronted adverbials and powerful verbs in our writing.

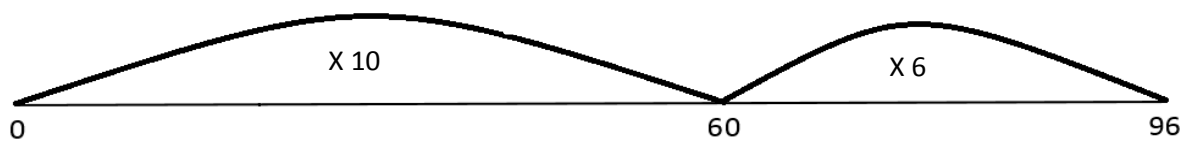

How can you help at home?

Read some stories set in different times in history. Can they find any powerful verbs or fronted adverbials in the stories that you read together? Encourage them to write their own stories that are set in a different time in history.

Maths

We will be solving problems using the division method learnt last week.

Method: $96 \div 6 = 16$

Later in the week, we will start our unit on fractions. This week we will look at converting improper fractions to mixed numbers and vice versa.

E.g. $\frac{19}{7} = 2\frac{5}{7}$

How can you help at home?

Solve division problems using this method.

E.g. Each egg box can hold 6 eggs. How many egg boxes are needed to hold 96 eggs?

Practise converting improper fractions to mixed numbers and vice versa.
