

Are you worried about a child, family or friend?

Child Protection involves taking steps to safeguard children and young people at risk of, or suffering from neglect, physical, emotional or sexual abuse. It also means protecting children from witnessing Domestic Abuse and Violence as well as supporting families who are in financial or medical difficulties. It is vital that everyone takes personal responsibility to look after children, families and friends and report their concerns. If we all watch out for each other then we will ultimately support and protect the future lives of our children.

Bottisham staff are always available to listen and help and can direct you to further support and advice.
