

Year 2 Example Timetable and Tops Tips for Reluctant Learners!

We have designed a weekly timetable to support you with your child's home learning and here are some tips to help your child to complete the tasks.

1. In school there are lots of breaks and down time away from learning including playtime, assemblies, lunchtime, listening to stories, physical exercise etc. This helps to structure the day giving children the time to relax and then time to concentrate on specific tasks.
2. For those children who are reluctant home learners our suggestion would be to let the children choose the order of the daily activities. They can then tick off the tasks as they are completed which helps with motivation. Be careful that they don't just choose their favourites subjects and then refuse the tasks that they like the least, some children will move heaven and earth to avoid any form of writing!
3. Over the week/day compromise with your child accepting that some tasks will be of high quality whilst others are just about OK! As long as there is a balance over time it'll be fine.
4. Try to follow their interests and they are more likely to engage and a bit of fun always works too. Younger children love a game of schools so take advantage and be the teacher!
5. And if all else fails a bit of bribery always works. Try putting marbles in a jar, stickers on a chart for every task completed which then lead to a nice treat e.g. favourite, food extra playtime, more I pad etc. And if all else fails tell them you're going to e mail their teachers or me! Good luck!
