

Coton's Netballers Reach County Finals!

Coton's netball squad have achieved so much since September it is hard to know where to begin!

Along with Mrs Harvey, Mrs Osborne held after school training sessions, before school training sessions, lunchtime and playtime training sessions! The children showed huge commitment and all made enormous progress in both their technical ability and strategic awareness.

These sessions culminated in their participation at four tournaments, over which they played in excess of 25 matches! They lost just two of these, winning 22 and drawing 1. As a squad it was difficult to fault their enthusiasm, their respect for each other and the respect they gave to opponents and umpires.

The organiser of the High Five netball tournaments, Helen Stepney, commented on what a huge achievement it was for Coton to be runners up in the final for such a small school. This achievement has not only earned Coton a place in the county finals for the first time ever, but has also resulted in two year 6 girls being accepted onto a talented netball programme which supports players to work towards achieving the level expected to be considered for a place in the Cambridgeshire Satellite Academy (the first level of the England Netball Talent Pathway).

Well Done Coton's Netballers!
