

ANNUAL GOVERNORS REPORT

SUMMER TERM 2018

Safeguarding and pupil well being

Children feel safe in school. This is evidenced by a pupil questionnaire and by members of the LGB talking to children at different point throughout the year.

The Governor with responsibility for safeguarding meets regularly with the Headteacher to ensure school is compliant and addressing any issues as and when necessary.

Three members of the Senior Leadership Team (SLT) are trained as designated persons.

Pupil Attainment and Progress

Year 6 results were above national figures across the board which was extremely pleasing for those involved with the school.

Year 2 results are in line with provisional National figures.

Governors are pleased with the progress made by the children.

Financial Management

The budget has been monitored regularly by the Finance, Estates and Personnel committee. The budget has run on track over the course of the year and it is anticipated that savings can be achieved by the end of the financial year.

Governors have been made aware of the financial position in the years going forward. Careful management and cost cutting where possible will need to be undertaken due to significant cuts in school budgets.

Church of England Religious Character and Christian Distinctiveness

The school works hard to ensure it has a strong Christian ethos and that this is evident to all those who come into the school.

There are links with the Church and the local vicar leads collective worship at least one per month. Christmas and Year 6 Leaver's services have been held in Bury Church as well as other year groups visiting for a number of reasons.

Children lead Collective Worship once a week under the support of the headteacher. This continues to be successful in raising self-esteem and confidence as well as ensuring the children are fully involved in collective worship.

Signed by Chair of Governors:

Mr John Hayes
