The mystery trail...

Over the last couple of weeks, the eco team have been monitoring mysterious animal tracks on the school field. We are very excited to be working with Mr Brown to set up a motion-capture cam to record our mystery visitor. We will update you with our findings.

SEEDS

Space Rocket Seeds!

As part of a national scientific investigation, NASA sent seeds up into space along with Tim Peake. They are currently in the International Space Station, awaiting a rocket to bring them back to Earth.

When they arrive, they will be sent to us and planted in our wonderful allotments.

Sustainability

We have recently agreed with our catering company, Aspens, a price list for our home grown produce. This means that crops from our allotments and eggs from Foundation Stage can be purchased by the kitchen and used in our school dinners! The money can then be used to purchase new seeds.

Dr Bike is running a bike MOT session on Wednesday 10th February. Leave your bike in the bike sheds if you would like it to be checked!

Coming soon

Dr Bike MOT: 10th February

Waste Week: 7th - 11th March

The Big Pedal: 18th - 29th April

BIKE MOT
