This policy is the amalgamation of previous school policies on the Internet, Acceptable use of the Internet by the whole school community and E-safety. It should be read in conjunction with the school's policies on Child Protection and Safeguarding, Data Protection, as well as the advice offered by Information Commissioners Office (ICO) and Cambridgeshire County Council.

Aim High...Fly High!

Intentions of this policy

Information technology and internet use is seen as a valuable resource to raise educational standards, to promote pupil achievement, to support the professional work of staff and to enhance the school's management information and business administration systems. It is an essential element of 21st Century life for education, business and social interaction. The school has a duty to provide students with quality Internet access, and hardware and to ensure that pupils and staff can use the internet safely and responsibly as an integral part of all lessons in all subjects of the curriculum. Staff will be given relevant training and knowledge to teach pupils.

Acceptable use

Networked resources, including internet access, are potentially available to pupils and staff in the school. **All** users are required to follow the conditions laid down in the policy. Any breach of these conditions may lead to withdrawal of the user's access, monitoring and/or retrospective investigation of the user's use of services, and in some instances could lead to criminal prosecution. Any breach of the conditions will also be considered a disciplinary matter.

These networked resources are intended for educational purposes, and may only be used for legal activities consistent with the rules of the school. Any expression of a personal view about the school matters in any electronic form of communication must be endorsed to that effect. Any use of the network that would bring the name of the school into disrepute is not allowed.

The school expects that staff will use new technologies as appropriate within the curriculum and that staff will provide guidance and instruction to pupils in the use of such resources. Independent pupil use of the internet or the school's intranet will only be permitted upon receipt of signed permission and agreement forms as laid out below. All computer systems will be regularly monitored to ensure that they are being used in a responsible fashion.

Conditions of use

Authorised access and filtering of the Internet.

The school's Internet access is filtered to block unsuitable websites by the Cambridgeshire County Council ICT services. Pupils will be required to read and agree to comply by the school rules and Internet use. Staff will use official school email addresses to correspond about school matters and pupils will use the STARZ platform.

Personal responsibility

Access to the networked resources is a privilege, not a right. Users are responsible for their behaviour and communications. Staff and pupils will be expected to use the resources for the purposes for which they are made available. Users are to take due care with the physical security of hardware they are using. Users will accept personal responsibility for reporting any misuse of the network to member of staff responsible.

Acceptable use

Users are expected to utilize the network systems in a responsible manner. It is not possible to set a complete set of rules about what is and what is not acceptable but the pages on network etiquette and privacy together with unacceptable use provides some guidelines on the matter.

Aim High...Fly High!

Network etiquette and privacy

Users are expected to abide by the rules of network etiquette. These rules include, but are not limited to, the following:

If you think someone has learned your password then contact member of staff responsible.
- Electronic mail is not guaranteed to be private. Messages relating to or in support of illegal activities will be reported to the authorities. Do not send anonymous messages.
- Disruptions – do not use the network in any way that would disrupt use of the network by others.
- Pupils will not be allowed access to unsupervised and/or unauthorised chat rooms and should not attempt to gain access to them.
- Staff or pupils finding unsuitable websites through the school network should report the web address to the member of staff responsible.
- Do not introduce 'pen drives' into the network without having them checked for viruses.
- Do not attempt to visit websites that might be considered inappropriate. Such sites would include those relating to illegal activity. All sites visited leave evidence in the county network if not on the computer. Downloading some material is illegal and the police or other authorities may be called to investigate such use.
- Unapproved system utilities and executable files will not be allowed in pupils' work areas or attached to email.
- Files held on the school's network will be regularly checked by the member of staff responsible.
- It is the responsibility of the user (where appropriate) to take all reasonable steps to ensure compliance with the conditions set out in this policy document, and to ensure that unacceptable use of the internet or intranet does not occur.

Appendix 3

Mobile Phone Policy

Duxford C of E Community Primary School is committed to ensuring the safety of children in its care. We recognise the importance of mobile phones in school for communication purposes, but are aware that casual or inappropriate use of mobile phones in the school could pose a risk to children.

Staff personal mobile phones

- Staff will not carry personal mobile phones while working. This protects staff from being distracted from their work and from allegations of inappropriate use. Their phones will be kept in an agreed area in school – in their lockers or bags.
- If staff have a break time during their working hours, they may use their mobile phones during these times in an agreed area not used by children e.g. in the school office/staff room.
- Staff should not take photos of the children with their mobile phones in any circumstances.
- Where it is essential for staff to make a personal call during a session, they should (in agreement with their line manager) make this in an agreed area not used by children.
- Staff must give the school telephone number to their next of kin, in case it is necessary for the staff member to be contacted, in an emergency, during teaching hours.
- A school mobile phone will be taken on whole-group outings in accordance with guidance.

All visiting teachers, governors and others coming to school to work with children

Visitors coming into school to work with children, e.g. music teachers, sports teachers, parent volunteers working in classes, therapists, psychologists, must leave their mobile phones in the office when they sign in. This also applies to governors. The mobile phones will be kept in a locked drawer and should be retrieved on leaving.

Children

Children are not allowed to bring mobile phones into the school.

The School notes the following Ofsted advice

‘Mobile phones may be used in school, as long as their use is appropriate. The use of a mobile phone must not detract from the quality of supervision and care of children’.

‘If inspectors observe, or become aware of, staff using a mobile phone for non-essential purposes they will consider drawing this to the attention of the manager, supervisor or registered provider. They will also consider if the staff member was meeting the needs of the children, when using the telephone and consider the impact on inspection judgements, including setting an action.’

Exceptional circumstances

It may be necessary to use a mobile phone to communicate with other staff or request help or assistance when outdoors, although staff should use the school walkie-talkies as a rule. The use of a mobile phones in these circumstances may be permitted by the headteacher in exceptional circumstances.
