

Dear Parents / Carers

16th November 2018

This week in School we are thinking about the national anti-bullying week's theme "Choose respect" and linking it closely to the ways we work and play with our peers.

We will be celebrating our pupils' achievements on Friday this week and Mrs Cunningham - one of the Deputy Head teachers who supports our school will be leading this. You are all welcome to join this celebration **Friday 16th November 9am**. It is also Children in Need Day and we are dressing in spotty clothes to raise money for this worthwhile cause.

The last few weeks have been busy at Thomas Eaton Primary Academy. Our youngest children in Pre School had great fun playing outside in the leaves!

Armstrong class have been learning about Celebrations and visited the church where their exemplary behaviour was commented upon. They continue to practise their basic skills on a daily basis both inside and outdoors.

Earhart class are learning about the past and have been working at piecing together a timeline for toys. Here they are hard at work! They have just begun working on the story of Pinocchio and all the children have written about their favourite toy. In maths they are learning about number facts such as $3+7=10$, $10= 2+8$, $20= 14+ 6$.

Curie class started their weekly swimming sessions last week and have been looking at stories from Africa. They rein acted parts of the story "The Lion roars"

Pankhurst class worked on Newspaper reports last week and created their own class Newspaper. They also visited the Parish Hall to take our school's contribution to the Village's poppy display. There they met Daisy the donkey and learned about the ways that animals were involved in World War one.

Hawking class are learning about the human body and the importance of keeping fit and healthy as well as developing their higher order reading, writing and mathematical skills.

Thank you to all those who contributed to the Foodbank. Your kind contributions weighed 85.2Kg. Thank you very much!

On **Friday 23rd November 2.15pm** we are holding a Maths Café to inform you of our Maths calculation policy. We will also be supporting you to understand Maths Whizz and how you can help your child. We look forward to seeing you there!
