Pupil Premium Grant Expenditure: April 2016-17

Objectives in spending PPG:

The school's strategy in respect of the Pupil Premium allocation for the current academic year is based on a review of the impact of Pupil Premium spending in previous years. The new strategy aims to:

• Raise standards of progress and attainment in English and Maths for children in receipt of Pupil Premium.

The provision for pupils eligible for Pupil Premium is strategically led and managed by the Senior Leadership Team. Provision for pupils eligible for Pupil Premium will be offered based on identified group and individual needs; with pupils accessing as many of the provisions and interventions as they individually require.

Measuring the impact of PPG spending:

The progress of vulnerable groups is monitored through robust tracking regularly across the school year. The progress of individual children is discussed at half termly pupil progress meetings and actions are agreed to support children not making expected progress.

Parents are informed about any extra support their child will receive and the impact that this has had upon their progress. These interventions are also included on a pupil's report at the end of the year.
