-1 STEDELIJK BASE Part 1 (1880 – 1980)

STEDELIJK BASE is the permanent installation of highlights from the collection of the Stedelijk Museum. The presentation features a selection of almost 700 works of art, grouped around historic movements, social themes, and influential artists.

The presentation begins on the lower-level floor, with art created before 1980. Take the escalator from floor -1 to floor 1, which hosts a display spotlighting the arts produced after 1980.

The display was specially designed by AMO / Rem Koolhaas with Federico Martelli. You are invited to create your own route, and the traditional room to room museum experience is transformed into a quasi-urban experience where every turn of a corner is a new discovery.

0 AMSTERDAM, THE MAGIC CENTER until Jan 6, 2019

50 years later, the Stedelijk looks back on the rebellious sixties, when art and society were gripped by radical change. Amsterdam was a haven for counterculture. Art broke free of the museum, and took to the streets, or was shown on TV. It was also a time of protest against the establishment – students, squatters and the feminist activists Dolle Mina, struggled for change. The exhibition brings the era to life with art, blow ups, film, photos, sound, newspapers and magazines.

TRUE LUXURY... until Feb 24, 2019

True Luxury... is a survey exhibition of works of art donated and purchased between 2012 and 2018. Among the show's highpoints is the space-filling installation by Erik van Lieshout, the imposing video installations of Arthur Jafa and the *AIDS Wallpaper* of General Idea.
