
Coronavirus Covid -19

Coronavirus can also be called Covid -19.

Coronavirus is a new type of flu.

Having flu will make you ill, but it is ok, you will feel better again.

I can keep safe from Coronavirus by washing my hands with soap and water.

I will wash my hands before I eat my food.

I will wash my hands after I sneeze, blow my nose or touch my mouth.

I will wash my hands after I go to the toilet.

I will be safe with my lovely clean hands.

I will try to remember not to bite my nails or put my hands in my mouth.

I will try to remember to cover my mouth when I cough or sneeze.

If I am not feeling well, I will tell a grown up.

I will not give my friends or teachers a high 5, hugs or fist bumps until everyone is feeling better.

I can do other things to be friendly, like give them a wave or bump elbows.

My school might need to close for a while; everyone will stay at home instead.

School will be closed to let everyone get better.

A grown up will let me know when I can go back to school.

Just like other illnesses, Coronavirus will go away soon.

I do not need to feel worried, but if I do, I can talk to an adult.

I will try to remember that everyone will be well again soon.
