Aspect of Learning: Resilience
Key Skill: to persevere when working on a challenging task

1

I give up when a task is difficult.

5

I can ask for help and support from adults and children to help me complete a task or activity I give up when a task is difficult.

10

10

I find ways to keep going even when a task is repetitive or difficult and complete challenging tasks independently.

Ageism

When people get discriminated against because of their age in school it is unfair. For instance, the year 1 pupils can't reach the bookshelf as it's too high. Everyone in school should be treated equally and make sure everyone can do the same things.

Racism

Racism is when someone is being mean and discriminating against a particular race. For example, being black makes you seem dirty, which is unfair. You should speak up against racism, stand up for yourself, and if anything happens tell someone you trust, as it's really not nice.

Dear Mr. Graham,

I am writing to thank you for the letter I received from you about the money that you have given to the school. I am very grateful to you for this and I hope that you will be happy to hear that the money has been used for the things that you suggested. I am sure that the children will be very happy to have the new books and the new toys. I am sure that you will be very pleased to hear that the money has been used for the things that you suggested.

Dear Miss Jones,
I am writing to you about the lack of sign language at our school. I strongly believe that a sign language that is used by deaf people must be taught to all children in our schools. I think we should teach it to the people who are deaf, so they can feel more included.

Firstly, I strongly believe that BSL should be a part of the curriculum. We are currently learning French, but BSL is more useful as a second language. We can use it in our lessons in our schools, and it will be accessible for all. If we included it in our work of the week, we could have signs of the week.

Secondly, people who are deaf in the school are often supported by an adult. If we taught BSL, this could be a valuable tool. Deaf people often feel isolated, so their parents would not be communicating with them. The use of BSL could be used to help children in school who are deaf to learn.

I understand that we have to learn a lot of subjects that will help our life. However, the importance of BSL is more and that is why we should include BSL in the curriculum. As we teach BSL, it can be a second language.

In conclusion, it is important that BSL is included in the curriculum. This will give everyone a good chance. All children in the schools should learn basic sign language to enable everyone to feel included. Please teach BSL in the curriculum. Please BSL in the curriculum.

I look forward to receiving your reply soon.
Yours sincerely,
Liam Knight-Rankin
