

Cut and stick the pictures into the right columns. Then explain how you know they are living or non-living things.

L/I: To know the difference between living and non-living.

I can sort animals, plants and objects into living and non-living.
I can say how I know if something is living or non-living.
I know that living things change as they grow.

Living

Non - living

tree

cat

ball

fish

car

flower

mug

cupcake

bee

human

spider

tadpoles

Oh no! These babies have lost their mummies!! Help the babies find their mummies by joining them with a line. On the back of this sheet can you name the baby and say what animal they have changed into? Frog, adult, butterfly, swan, caterpillar, baby, tadpoles, cygnet.
