

CREATING YOUR FACTSHEET

You are going to create your own butterfly factsheet.

It should have :

- A heading
 - Two sub-headings. This can be about what they eat, or their life –cycles or where they live or something else!
 - A picture, (Maybe a butterfly, or caterpillar?)
 - A caption to write next to the picture.
- If you can't do all of these. Just try a factsheet with a heading , a picture and write a few sentences about butterflies.*

YOUR FACTSHEET:

This can be done over the week.

Remember :

- Use the information you collected last week. It might take a while to choose the bits you want to include.
- keep your handwriting neat.
- write in clear sentences.
- Decorate your factsheet. Make it interesting and nice to look at.
- Use bright colours, if you have any, for pictures or decoration.
